

A MIDNIGHT SESSION

City Holds Long Session, Allows Water Co. Bill and Transacts Considerable Routine Business.

All members were present at the regular monthly meeting of the council last evening. A petition from Harry Harrig and fourteen other residents of the Fifth ward, asking for an electric light at the corner of Madison and Illinois avenue, was referred to the committee on lighting with power to act.

Peter's congregation, through pastor, officers and a large number of members, petitioned the council to furnish free water to the parochial school. T. H. Hanna addressed the council, saying that he appeared as a layman and not as an attorney, and that the petition was granted, and that the expense to the city would be from \$85 to \$100 per year. The city is saved many thousands annually in the education of nearly 500 children who attend this school. Ald. Redfield said that he thought St. Joseph's school should also be furnished with free water, as St. Stephen's school is already provided, to which Hanna said he heartily agreed. Ald. Abb made a motion that the petition be granted and that free water be furnished to all parochial schools in the city. This motion was carried by a unanimous vote.

Ald. Altenburg proposed for the laying of a sewer upon the street, from Center avenue, south on Church street, to connect with the sewer laid by the Soo company, so as to carry off the refuse and accumulations that had traveled in that part of the city during the year, was read, estimated cost being not to exceed \$10,000.

The mayor advocated the passage of a resolution, saying permission to act had been secured and it was decided without opposition. An official notice in an appeal to the court in the claim of the Stevens Point Water Co. against the city of Stevens Point, amounting to \$2,970, which claim was disallowed at the meeting, was read. Ald. Redfield said that the matter be referred to city attorney to look after the city's interest and file his opinion at the next regular meeting of the council. The city attorney was present and stated that he did not wish to give his opinion as to the right of the city in disallowing the claim, but would give his findings at the next meeting.

A board of public works made a report to the effect that plans had been made for macadamizing North Second street from Normal avenue to the city street, together with the curb and gutters. The mayor said that he did not think it advisable to have macadam work at the present time and called upon the city engineer, who stated that the sewer from street north on North Second street, crossing the slough, had been fully three feet too high, and that other connections are made with the sewer from east and west, it would in any stop up and overflow in the slough. He said that it should be lowered and re-laid according to the plans and connected with the sewer on Clark street. Frank Cook, a property owner on N. Second street, stated that he thought the sewer should be properly fixed before the city is laid, and that if the city took to lay the macadam a remembrance would be presented. Upon motion of Ald. Redfield this matter was referred to the board of public works and city engineer to make an estimate of the cost of taking up and laying the sewer and report at the next regular meeting.

Plans of the original sewer plans in the city were presented by the mayor, said that they had been found in the basement and should be properly laid and placed in the city clerk's office, as to replace them would cost considerable money. The committee on affairs were given power to act in this matter.

Frank Cook spoke against putting off macadam work on N. Second street, saying that it would take at least 400 tons of stone to lay all the macadam in the city at the rate the work was being done. The city, he said, is made of rock, which was purchased three or four years ago, and was crushed and placed on this street, which is a main thoroughfare leading to the northern country. Ald. Cook spoke against tearing up the street after macadam is laid and said that the sewer should be fixed before any improvements are made on N. Second street.

A board of public works reported that they had caused cinders to be laid on the road leading to the paper mill in the vicinity of Phillips grove. The Stevens Point brewery, that had investigated the matter of the sewer to the Fourth ward school building, a distance of 100 feet, that there is no rock that can be expensive to remove, and the cost is estimated at \$1,250.40; the rods on the Wisconsin river need tightening and re-adjusting. This report was accepted and a resolution was passed that the board have power to have the latter recommendation, they secure competent help to do the work. Ald. Abb said he thought the school should also be painted at this time.

A monthly financial report of the city was presented and placed on file, as was also his report giving names and amounts received for the aid. The report of the municipality for May and June was read, herewith a receipt for \$65, the amount he had paid to the city treasurer.

in the Clifford Lumber Co. yard be left where it is at present, and that a new light be placed at the corner of Portage and N. Third streets. Their recommendations were adopted. The committee on fire department recommended that the hydrant at the Cove Furniture Co. plant be removed 45 feet south and that another hydrant be placed at the southwest corner of the factory, which would require a pipe extension of about 300 feet. Their recommendation was adopted.

N. M. Urbanowski, alderman from the Fourth ward, presented his resignation, saying that he intended to move from the Fourth to the First ward in about two weeks. Upon motion the resignation will not take effect until the alderman changes his residence. He recommended that J. D. Langosky be elected as his successor, but Ald. Urowski wanted the matter left open until the next meeting and no action was taken.

The mayor called the attention of the council to the fact that a man has been employed picking up wood that drops from wood wagons onto the streets, and said that he was opposed to hiring a man for that purpose when there is an ordinance that regulates this matter. A motion that the chief enforce the law and the man be discharged, was carried, the street commissioner having previously stated that the man had been hired on recommendation of the mayor. Ald. Abb called attention to the fact that Mike Jach, a street cleaner, receives only \$15 per month, whereas he should be paid at least \$25, but no action was taken and Jach will still clean the streets at the insignificant salary of \$15 per month.

Ald. Urbanowski stated that where street sprinklers are being filled, the curbing is broken on account of the goose necks being too close to the walk, and the board of public works will see that they are extended. Ald. McDonald reported that night exhibitions will be given at the fair grounds during the coming fair and that the Lighting Co. would furnish wire and electricity without cost, but as they are short of arc lights, asked that the city give them the privilege of removing and using 7 or 8 for three nights. The privilege was granted.

The board of public works will look after certain work on Illinois, Michigan and Wisconsin avenues, as per recommendation of Ald. Redfield, and Ald. Urowski asked that North Second street, where the sewer has been laid, be rolled down by the steam roller, which the mayor said would be done in a few days. The chief of the fire department was instructed to see that the wiring to the Table & Desk factory is repaired, and that the firemen make a test each week.

The mayor spoke of the water works test, made a few days ago, and T. W. Gray, of Manitowish, one of the principal owners of the plant here, was given the privilege of addressing the council relative to the unpaid claim above referred to. Mr. Gray said that their test had in every way complied with the state law and that it was impossible to throw perpendicular streams 100 feet under the weather conditions. He spoke of a similar test that had been made at Antigo, which was not nearly as good as the one given here last week, but also complied with the state law, and was highly spoken of by the officers there. Mr. Gray said that the company is ever ready to do everything within reason to please the people of Stevens Point, and closed his remarks by asking that the city pay the amount due and stop further litigation. Questions were asked by a number of the aldermen, Messrs. Pagel, Redfield and others joining in the discussion, after which Frank Featherly, a resident of the South Side, spoke of a recent fire in the Sixth ward, when a barn was burned, and he said that the firemen were unable to throw a stream 12 feet high through a line of hose 500 ft. long. It has since been learned that the line consisted of 800 feet of hose.

Ald. Pagel offered a resolution requesting the rate commission to send a man here to investigate the plant as to its powers, to furnish proper fire protection, and also investigate rates paid by private consumers. This motion was adopted. Ald. Hodson moved that the question of referring the Water Co. matter to the city attorney, previously adopted, be reconsidered, which was carried by all voting in favor except Ald. Altenburg, Cook and Redfield. A motion to allow the bill of the company was also carried by the same vote, after which Mr. Gray thanked the council and said that the standpipe would be cleaned at once and every reasonable request of the city or citizens granted.

New Bank at Junction.

Articles of incorporation were approved by Commissioner of Banking M. C. Bergh, last Monday, for a new state bank at Junction City with capital of \$10,000. The incorporators are F. H. Pardoe, S. M. Quaw, H. E. Smith, A. H. Clark and W. E. Hudtloff, all of whom, we believe, are residents of Wausau and more or less directly connected with the National German-American bank of that city.

New Brick Addition.

For the past week workmen have been engaged in hauling away sand preparatory to the erection of a new block on S. Third street for Kuhl Bros. This will be built just south of their present store and to replace the wooden structure burned last winter. The new building will be 35x50 feet, two stories high over the basement and will be of solid brick. It will connect with the rear of the main building, making the whole one large room and the upper floor of the new section will also be used for salesrooms. This addition will provide Kuhl Bros. with the room which for some time they have felt the need of in their growing business.

BLOSSOMS LIKE A ROSE

Almost Valueless Marsh Lands of a Few Years Ago, Now the Garden Spot of Portage County.

Nature has done much for Portage county, but man, guided by the wise hand of a kind Providence, is constantly adding to its beauty, wealth and value. This can be truly demonstrated by a visit to what has been known as the Buena Vista marsh, a tract containing about 56,000 acres, which previous to two years ago was fit only for raising wild grass, grasshoppers and gophers, but now contains from twenty to twenty-five comfortable homes, with about 3,000 acres under cultivation and which produces the finest crops of wheat, oats, rye, speltz, buckwheat, barley, flax, corn, potatoes and cabbage that can be found in central Wisconsin this year, or in fact in any other part of the great state. This land is in the Portage County Drainage district, and broad acres that sold for a mere trifle or were secured as tax titles in the past, have been transferred during the past year at from \$20 to \$35 per acre. The latter figure is for land upon which improvements have been made, and at least one tract containing about 1,000 acres of unimproved land, without a dollar's worth of improvement, has been sold during the past year at \$22 per acre. Is it any wonder then that those marsh land owners who kicked long and loud against drainage in the Buena Vista marsh when the plans were being formulated a few years ago, are now among the most enthusiastic in praising the remarkable producing qualities of this land, and that those who unwisely disposed of their holdings are sorry that they acted so hastily?

In company with the editor of the Journal and Ald. Redfield, a trip to the marsh was made on Tuesday. W. B. Coddington, one of the drainage commissioners, being met at Plover, and the trip from there was made by team. Improved portions of the marsh were first visited and it was indeed a pleasing sight to travel over the vast expanse and gaze upon the rich fields laden with wheat, oats, rye, etc. The crop is certainly an abundant one, several kinds and varieties of wheat being grown and which will yield from 20 to 30 bushels per acre, while the oat crop will average from 40 to 75 bushels per acre. Mr. Coddington, who is general manager for the Bradley Polytechnic Institute, of Peoria, Ill., who are the largest individual owners of the land in the district, having about 12,000 acres, is also largely interested himself. At present they have three ranches. No. 1, near Bancroft, with 362 acres under cultivation, is in charge of John Kramer, formerly of Stevens, Minn. The first seed was sown there last year, and the yield of tame hay cut this season averages three tons per acre, with other crops in proportion. No. 2 is in charge of L. G. Wright, formerly of Geneseo, Ill., and has 198 acres of as fine a crop of grain, potatoes, corn, etc., "as ever grew out of doors," and was busily engaged in harvesting. This is the first crop grown on this land, as it is also on No. 3, where A. C. Eggleston and family reside temporarily, and where 305 acres are under cultivation, 160 acres of which are planted to grasses. This land, most of which was burned over by the fires of last summer, has all been cleared within the past few months.

Fully \$3,000 has been spent on each ranch in the erection of buildings, while at least \$1,500 has been expended by each of the other occupants of land in homes, barns, etc. Several teams were employed yesterday in hauling lumber to erect granaries on each ranch, with capacity of from 1,200 to 1,500 bushels. Mr. Coddington's present aim is to have at least 2,000 acres under cultivation within the next year, and to push along his good work a mammoth 25 horse power steam plow, with 8 plows attached, weighing 9 tons, and with a capacity of from 10 to 20 acres per day, is being used to turn over the soil on the virgin prairie. The little loved and seldom visited Buena Vista marsh of the past, when it was covered with several feet of water during wet seasons, but now drained by broad, deep ditches, over which one passes on modern iron bridges, to which good roads lead, is truly fast becoming the garden spot of Portage county.

Very Narrow Escape.

Wm. Bergholte, who is employed as a machinist in the car shops located midway between St. Paul and Minneapolis, is enjoying a week or two of vacation at the home of his parents, Alex. Bergholte and wife. Will had a remarkable close call from being killed or badly hurt just before leaving St. Paul, last week. He called on a friend at one of the factories and expected to make a longer visit, but upon looking at his watch found it was nearly train time and hastened toward the depot. He had barely left the building when a terrific explosion took place, killing several of the workmen and injuring a number of others, besides practically destroying the four story structure.

Death of Dr. Boughton.

Dr. D. F. Boughton, whose wife was Miss Helen McDill, sister of the late G. E. McDill of this city, died very suddenly in Chicago last Friday morning. He was about 60 years of age. Mrs. Boughton died in 1905 and the surviving members of the family are two daughters and one son, Grace, Edith and Dr. Harris Boughton. Miss Kittie McDill has also made her home with the Boughton family for several years. The deceased gentleman was a former superintendent of the state hospital for the insane near Madison, but of late years had been engaged in the practice of medicine in Chicago.

A BIG AND BETTER FAIR

\$10,000 in Premiums and Purges—Best Special Attractions Ever Seen Here—Evening Races.

W. L. Bronson and a crew of expert bill posters started out the first of the week to advertise the Stevens Point fair throughout various portions of the county. The dates for the annual exhibition are Sept. 6th to 11th, with races on the 8th, 9th and 10th. From present indications the 1909 fair will be bigger and better than ever before, although the price of admission will remain 25 cents for adults and 15 cents for children. A total of approximately \$10,000 will be offered for premiums and purses, of which the sum of \$3,600 will be given for racing events. In addition to the above there will also be liberal purses offered for running races and farmers' races.

A new feature this year and one never before attempted in central Wisconsin will be running races each evening, when the grounds and courses will be brightly lighted by electricity.

The officers and directors have provided special attractions that will prove to be far better than anything ever before seen outside of the state fair. The pretty Amoros Sisters, Europe's renowned, charming and marvelous artists, will give free exhibitions each day of their fearless mid-air feats of gymnastic and gymnastic cleverness. Quoting from the premium book, this will be "superior, high class, up-to-date trapeze offering in which the daring of the dainty and dauntless experts is exquisitely enhanced by the grace and picturesqueness of their performance."

Tony Wilson and Heloise, two other athletes of world renowned fame, will also perform each day in front of the grandstand. As this latter attraction is to go direct from Stevens Point to the Wisconsin state fair, it is an assurance that they are experts in their line. Make no other dates for the week of Sept. 6th to 11th and be sure to come to the Stevens Point fair.

Traveling Public Libraries.

New traveling libraries have been placed in S. Whittaker's store at Buena Vista and in J. J. Omerick's general store at Polonia. Nearly one-half the books shipped to the latter place are printed in the Polish language and will be found interesting reading by the people living in that portion of the county. New sets of books have also been taken to Jordan, where Mrs. J. W. Vaughan acts as librarian; to the home of Mrs. Wm. Fontaine in Lincoln, and to L. E. Wentworth's in Buena Vista.

His First Mass.

Rev. Casimir Shippey, who was ordained to the priesthood by Bishop Fox at Pulaski, Brown county, last Sunday, will celebrate his first mass at St. Peter's church in Stevens Point, this being his home city, next Sunday. He will be assisted by Rev. L. Stefanik, of Antigo, as deacon; Rev. Frank Novak, of Green Bay, as sub-deacon; and Lawrence Maleski, of Green Bay, a theological student, as master of ceremonies. The mass will be celebrated at 10 o'clock, and Rev. Father Anthony, of Green Bay, will preach the sermon.

Putting Plasters on Back.

Marshfield News: The Stevens Point Gazette says that Marshfield has a plaster doctor whose method of treatment is similar to the late lamented John Till. The Gazette is right but the doctor is not yet permanently located here. His home is at Medford but he has dates here every two weeks having office rooms at the Mersch Hotel. On his last visit here no less than 30 from Stevens Point came up on the early train and so anxious were they to see the doctor first that the lame ran. The doctor's name is Meyers and he is fast gaining the reputation made by doctor Till.

Miss Sophie De Meules Married.

Mr. and Mrs. H. N. Richardson, of Minneapolis, announce the marriage of their daughter, Miss Sophie C. De Meules, to Chester A. Guernsey, which important event took place on Tuesday, July 26th. Mr. and Mrs. Guernsey will be at home at Townsend, Montana, after Aug. 1st. The bride will be pleasantly remembered as a former popular Stevens Point young lady, a graduate of our High school, class of 1900, but moved to Minneapolis with her parents shortly thereafter. She visited here about one year ago, and every person who shares her acquaintance will join The Gazette in wishing both bride and groom the choicest blessings throughout life.

Bodily Hurt in Runaway.

Mrs. J. M. Kluck, wife of a prominent merchant and potato buyer at Custer, will be laid up for a month or more because of an accident which befell her last Monday. Mr. Kluck recently purchased a spirited horse and the first of this week it was hitched to a buggy in which were seated Mrs. Kluck, her daughter and a young man driver. The horse became frightened and started on a mad gallop down the road and had fairly got under good headway when Mrs. Kluck jumped out, dislocating and spraining one of her ankles and bruising various portions of the body. The runaway continued on for about a mile and a half when it became "winded" and was brought to a stop. The dashboard was partially wrecked by the driver in his efforts to control the horse but neither of the other two occupants was hurt. Dr. von Neupert is attending the injured lady.

Good Day for Divorces.

At Grand Rapids, last Monday, interlocutory judgments for divorce were granted in three cases, in all of which the plaintiffs are present residents of Stevens Point, but according to the new law final decrees cannot be taken for one year.

Emma Dauber was given a separation from Wm. F. Dauber. The couple were married in this city in 1902, and the maiden name of the plaintiff was Emma King. They have no children. The defendant is now at St. Paul.

Mrs. Mary Zimmer was granted a divorce from Edward K. Zimmer on the grounds of desertion, the defendant having left for parts unknown three or four years ago. They were married in this city a number of years ago, and the custody of their three children is given to the mother.

Mrs. Anna M. Kleiner secured a separation from John Kleiner, together with the custody of their son, Wyman, the charge being non-support and inhuman treatment. The couple were married at Boyd in 1903.

Is a Brilliant Pianist.

The annual catalogue of the Columbia School of Music, Chicago, contains a good likeness, and consequently a handsome picture, of Miss Winifred W. Lamb of this city, who has been a member of the faculty for the past two or three years. The following truthful reference to the young lady appears in the book:

Winifred W. Lamb is a brilliant young pianist whose concert appearances have won for her the enthusiastic approval of her audiences and critics. Her teaching is marked by intelligence and an enthusiasm that inspires her pupils to zealous emulation. She has the prime requisites of success in her knowledge and the faculty of imparting it to others, while her sympathetic earnestness as a teacher is a source of constant stimulation to those under her instruction.

WIND AND HAIL STORM

Much Damage Results From a Severe Storm Last Saturday Evening—Crops Destroyed, Buildings Demolished.

The northeastern part of this county and southeastern part of Marathon county was visited by the most disastrous wind and hail storm within its history, last Saturday evening. It followed a day of intense sultry heat, putting in its appearance at about 6 o'clock, and swept over an area of country fully three miles in width at some points, and from ten to fifteen miles in length. Starting in the vicinity of Bevent, Marathon county, it seems to have spent its fury in the vicinity of Rosholt, Portage county, the wind and rain being accompanied by hail, which fell in immense quantities, the ground being covered in places from 6 to 10 inches deep, some of them several inches in circumference, as large as goose eggs, so our informant claims. Vegetation of all kinds in the path of the storm, including grain, corn and potatoes, was completely swept from the face of the earth, several farmers losing their entire crop. Large barns owned by John Czek and Alois Mulley, in Sharon, were blown down and reduced to kindling wood, while in a number of instances buildings or otherwise damaged. It is impossible to correctly estimate the financial loss occasioned by this storm, without a personal visit to the scene, but it will certainly amount to several thousand dollars. Most of those who suffer can ill afford the loss of their crops and their property, and for some of them it means years of toil to recuperate and place them where they were before the storm struck their property.

Return From the West.

John O'Keefe and Miss Georgia Krembs returned Sunday morning from their western trip, they having left here a couple of weeks before in company with E. L. Martin and wife, Dr. E. H. Rogers and C. E. Wert. The latter two may be home this week but Mr. and Mrs. Martin have gone to California to visit until late in October. The entire party registered in the government land lotteries at Missoula, Mont., Spokane, Wash., and Coeur d'Alene, Idaho, after which they visited the Seattle exposition. Mr. O'Keefe and Miss Krembs spent a couple of days in British Columbia, visiting a daughter of Wm. Martin at New Westminster. While in Spokane John also enjoyed a visit with Prof. W. E. Allen and Rasmus Hanson, former Stevens Pointers, whom he found well and prosperous. For its size, the Seattle fair is a marvel, this being especially true of the grounds, which are literally covered with handsome flowers and at night are lighted by millions of colored incandescents. The trip was made via the Canadian Pacific railroad, from which may be viewed scenery said to be as magnificent as any in Switzerland.

Bullets for Neenah Dogs.

Neenah News: A crusade against unmuzzled dogs has been started by Chief Brown and his men. During the time between July 1 and Sept. 1 the dogs must be muzzled. Nearly every day this week from three to five dogs have gone to the dog heaven because their masters failed to provide the muzzles. The chief states in every case where dogs have been killed, he has warned the owners two and three times to comply with the law. If the warning goes unheeded in the future, the full force of the law will be invoked which provides that not only shall the dog be killed but the owner be fined \$5 and costs. Neenah dog owners had best muzzle their dogs.

PROF. HYER TO SUPERVISE

Appointed Head of Practice Dept. at Normal—Many New Teachers Engaged.

When the Stevens Point Normal opens for the fall and winter term Aug. 30th, it will have a complete department of manual training, in charge of a most competent instructor. It is expected that this department will become one of the strong features of the school, its installation putting the school directly in line with the latest and most progressive educational advancement and enabling them better than ever to fit students for successful teaching in the Wisconsin public schools.

The friends and acquaintances of Prof. Frank S. Hyer, institute conductor in the local Normal, will be greatly interested in knowing that while he still retains the position of institute conductor, his regular work in the school is shifted to that of supervisor of the practice department which position he will assume at the opening. He succeeds Miss Josephine Fitzgerald. It is not necessary to enumerate Mr. Hyer's qualifications for this work, as he is known and recognized throughout Wisconsin as one of its most up-to-date and progressive educators. Mr. Hyer's former work in the school will be in charge of Prof. H. S. Hippensteel of Auburn, Indiana. Prof. Hippensteel is a graduate of the Indiana State Normal school, of Indiana university, and in addition studied the subject of educational methods in the University of Chicago for a year. He has had a wide range of successful experience and should prove a valuable addition to the faculty.

The position vacated by the transfer of Prof. A. H. Sanford to the new La Crosse Normal will be filled by Prof. Raymond G. Patterson, who holds the bachelor's and master's degree from the Syracuse university, New York. Prof. Patterson is also a graduate of one of the Pennsylvania Normal schools. In addition to his experience in public school work he taught his special subjects in the Mayville, North Dakota, Normal school.

Taking charge of Prof. Olson's work during his year's leave of absence for further study, Prof. Wright A. Gardner, a graduate of Albion college, now doing post-graduate work at the University of Chicago, comes to the Normal with splendid training. He has had successful experience in the teaching of biology in the Blaine High school, Superior, and in Missouri Valley college.

The kindergarten position will be filled by Miss Amanda Zeller, a full course graduate of the Chicago Kindergarten College, and who has had several years' experience in teaching in primary and kindergarten departments.

The first alumnus of the school to be appointed to a regular position on the faculty is Miss Lura A. Burce, who will assume charge of the work in composition, literary reading, and juvenile literature. After graduating from the Stevens Point Normal Miss Burce for three years had charge of the English work in the Cumberland High school. She was then elected county superintendent for Eau Claire county, which position she has just vacated. Her splendid work as county superintendent easily places her among the leaders, and comes to us with a training and experience that will make her a strong factor in the progress of the school.

The position vacated by Miss Mary A. Porter, supervisor of music, will be filled by Miss Anna E. Menaul of Chicago. Miss Menaul has had splendid training both in schools and from private instructors. For the past three years she supervised the work of music in the Kankakee, Ill., public schools with marked success.

The new instructor of domestic science is Miss Flora C. Studley of Springfield, Mass. Miss Studley is a graduate of the Bridgewater, Mass., State Normal school and of Pratt Institute. She taught in the grades at Springfield after her graduation from the Normal school, and immediately after her graduation from Pratt Institute was engaged to teach domestic science in the same schools, this testifying to her excellence as a teacher.

These teachers all come highly recommended by educational experts competent to judge, and bring to us training of a special nature, broad, successful experience, and a high degree of culture.

Death in Philippines.

On Monday morning Mr. and Mrs. August Lutz of 1103 Church street received a letter from the war department at Washington, D. C., informing them of the death of their son, Arthur A. Lutz, which occurred on July 12th.

This was the first intimation the parents had of the sad occurrence and it came as a shocking surprise, as only the week before they had received a long letter from their son, written June 13th, in which he expressed himself as being well and happy and well pleased with the Philippines. The letter received from the adjutant general's office further states that death was caused from blood poisoning, but no particulars regarding the place of death were given. However, it is expected that the late soldier's commander, in accordance with army regulations, will soon furnish them with a full account of the sad event.

Arthur A. Lutz was the older son of Mr. and Mrs. Aug. Lutz and was born in this city 23 years ago last October. He enlisted in the regular army at Aberdeen, S. D., in 1907 for a term of three years, and soon thereafter went to the Philippines as a member of Co. L, Fourth U. S. Infantry. Besides his parents he is survived by one brother, Erwin, aged 15 years.

BEST FOR CONSTIPATION.

We want you to try Rexall Orderlies at our risk. We know there is nothing that will do you so much good. We will refund your money without argument if they fail to satisfactorily relieve constipation. They are eaten like candy. They do not gripe or purge. Ideal for children. Two sizes, 10c. and 25c.

ALEX. KREMBS, JR. DRUG CO.,
Cor. Main Street and Strong's Ave.

The Martian and the Farmer.

If the proverbial inhabitant from Mars were to visit an ordinary American rural school, he would be inclined to comment somewhat as follows: "I notice that these Americans seem to think the raising of crops to be quite unnecessary; and that they are applying their remarkable intelligence to the task of depopulating their rural regions. They have the acuteness to see that if they are to drive people out of the country they cannot begin with the adult population. Life in the open country is so alluring and natural that even when it has not been made as comfortable as it easily might be, it holds people fast."

Pass the Word Along.

A newspaper can give free space in its columns to religious and fraternal societies, make excuses for the mistakes of mankind, draw the veil of charity over the waywardness of youth and the weakness of humanity in general, boost every private and public enterprise, give money to every charity, and tell of the people's perfections and pass over their imperfections without ever receiving one word of commendation; but if the editor of a paper goes counter to anyone's opinions, there is the devil to pay, and if he makes a mistake in printing there will be a hundred critics to point it out to him.

Automobilists' Attention.

All automobile drivers are requested to refrain from running their cars on the fair grounds race track. The speed attained by the machines causes a tremendous suction which draws the loose dressing up and is seriously injuring the surface of the track.

Board of Directors.

Business College.

The Wausau Business College invites you to investigate its courses, its management and its standing in the business public; hundreds of ambitious young people have secured lucrative positions after graduation. Increase your salary by taking our course of shorthand or bookkeeping. Expert teachers in each department. Reference: All business firms and banks of Wausau, also former students. Write for beautifully illustrated catalogue. Do it now.

E. D. Widmer, Prop.
j21w4 Wausau, Wis.

President Taft and his cabinet are applying themselves to a problem of the greatest importance entirely outside of politics. Republicans, democrats, populists, socialists and everybody is in sympathy with the policy to reduce government expenses and there never was, in this hemisphere at least, a richer field for reduction. It is well known that the government, in its civil branches could be conducted for less than half the many millions it now costs. The government printing office for example is the largest and most expensive printing establishment in the world. It will be impracticable under present and prospective political conditions to accomplish it, but its expenses could be reduced at least thirty-three per cent. The postoffice department has recently established an ice plant by which ice is furnished to the thousands of clerks for less than a dollar a ton. The other department are paying over seven dollars per ton. These are only one or two of hundreds of instances of items and expenses where great saving can be accomplished.

Columbia School of Music, Chicago

Clare Osborn Reed, Director
Offers most complete education for least expense in Piano, Voice, Violin Theory, Public School Methods; leading to graduation and degree. Our graduates occupy the foremost positions in the country as artists and teachers. Best location and equipment in Chicago. Write secretary for illustrated catalogue (Ohio Bld. 325 Wabash Ave. CHICAGO, Ill.)

HETZEL'S ICE CREAM

Local Notes.

J. Rollin Gray spent Sunday with his family at Waupaca lakes.
C. H. Cashin attended to law business at Chippewa Falls last Thursday.
Miss Gertrude Linder, of Mosinee, has been visiting among relatives and friends in this city for several days.
Dr. J. W. Bird, eye, ear, nose and throat specialist, 428 Main street, opposite the two banks, Stevens Point, Wis.
Mr. and Mrs. Geo. H. Altenburg, of Dancy, spent the latter part of the week at their city home in Stevens Point.
Now is the time to get a gas stove, and the Lighting Co. are prepared to furnish the celebrated Acorn, the best made.
Miss May Fahl, of Milwaukee, arrived in the city last Friday for a visit at the E. J. Pfaffner residence on Strong's avenue.
If your horse is lame, interferes or is not going right, bring him to F. F. Kirsling, the Normal ave. horseshoer, who guarantees his work.
J. D. Langosky went to Wausau last Friday evening for a few days' visit with relatives, going from there to Minneapolis on a business trip.
John H. Wallace, who is operating in the vicinity of Ladysmith and other points in Kusk county, came down last Friday to spend a few days at home.
Misses Eve McTigue and Eva Stuart, of this city, are teaching near Plainfield, the former in the Harris district and Miss Stuart in the Welton district.
Mrs. Andy Klug left for Milwaukee, last Friday morning, to visit with friends for a couple of weeks, and expects to go to Chicago before returning.
Been away for a vacation, or will you soon be back? In either event this is the proper time to subscribe for The Gazette, if you are not already on the list.
Rev. John A. Stemen and family are spending this week at Waupaca and occupy what is known as the Stevens Point cottage, owned by Miss Bertha Doty.
Supt. and Mrs. J. N. Davis returned from Hazelhurst, last Thursday evening, where they spent a couple of pleasant weeks at the M. E. Means summer resort.
Ray Newby, of Arnott, was the last to leave here for Montana for the purpose of "taking a chance" on securing a government homestead, leaving on Thursday morning.
Mr. and Mrs. Ensign Atwell returned from their wedding trip, last Friday afternoon, having visited the exposition at Seattle and various points of interest in the far west.
The picnic advertised to be given by the local council, Knights of Columbus, has been indefinitely postponed, in other words it is very probable that none will be given this year.
N. Eiden-Mitschen, of Ellis, was a visitor to the city last Friday, coming in to meet his wife, who had been visiting among relatives and friends in Milwaukee for a couple of weeks.
Frank Winiacki, who has been at work in local printing offices for the last few years, left for Lansing, Mich., Sunday afternoon, to accept a position with the Robt. Smith Printing Co.
Peter Trierweiler, Jr., horse shoeing, general blacksmithing and all kinds of wood working. Special attention given to all work. Replacing and putting on rubber tires. Brick shop, 308 Clark street.
Someone emptied his pipe or threw a match, cigar or cigarette stub on the Wisconsin river bridge, last Friday afternoon, and the fire department was called to quench the blaze. Little or no damage.
Chas. W. Pier, a well known former Stevens Point young man, has been appointed as agent for the National Express Co. at Waupaca, the former agent having resigned and moved to Pittsburg, Pa.
Among the many good citizens of Amherst who spent Friday in this city were Theo. Myers, Benj. Fleming, W. J. Delaney, Fred Adams, John A. Skoglund, Chas. N. Dwinell, A. L. Rounds and John Peterson.
Ray E. Brasure and Miss Catherine Belle Potts, both of whom graduated from the Stevens Point Normal full course in 1906, were married at the bride's home in Waupaca last Wednesday evening. They will go to Minocqua about Sept. 1st, where Mr. Brasure is principal of the High school.
Victor Gross and family now occupy the C. A. Lane house at the corner of Plover and Brawley streets, which Mr. Gross recently purchased from the heirs of the former county clerk. E. A. Mase bought the Gross property at 232 Franklin street and has moved to his new home. Each of the places sold for \$1,000.

MORE ABOUT WESTERN TRIP

Stevens Point Traveler Continues Description of Journey to California.
Enroute, just leaving Sacramento, Cal., July 21, 1909.
Did you ever cross a lake? Of course you have, but did you ever cross one for 40 miles on a railroad? Ah, ha, that's different, isn't it? Well when you come to San Francisco by the Southern Pacific you will cross Great Salt Lake that way. It makes the way 42 miles shorter. Right in the middle of the lake there is a station. Along this 40 miles there are several section houses and one in particular is built on the piling. There are several passing tracks also on the piling. It was certainly a great piece of work and while the Southern Pacific has made money galore for all their stockholders they have not been afraid to spend money for improvements when they were necessary.
Last week the knots that swarm about the lake became so thick that they literally stopped the train by getting on the track and making it slippery. To continue, the trainmen were compelled to get out and sweep the track off. The trainmen all being union men it was a question whether they were hired to sweep knots off the track or not. No, there was nothing in the by-laws of the union that mentioned sweeping knots; none of them had any recollection of it having been mentioned when they hired out. It was a grave question but finally they agreed and the knots were swept and the train proceeded.
Just what so many knots were doing there I cannot say. Of all the barren wastes you ever saw this is a first prize winner. I can only account for it in one way; the knots found themselves there and were so disgusted with the looks of the country that they threw themselves in front of the cars. I thought when I told you about the country surrounding the right of way in Wyoming that I had seen the worst ever—but well say—you have heard people tell you about poor land in Wisconsin? why this country out here west of the lake is so poor that the poorest land there is like a Fourth of July dance compared with a funeral.
At one of the section houses in the lake I saw a woman. You have heard a great deal about western hospitality and there is a great deal of it out here, but listen: suppose you were fixed as that woman is; would you be glad to see any one? Well, I'll tell you if it was me I would welcome a yellow dog and he could have the best room in the house and eat at the table also. That doesn't explain western hospitality but it illustrates conditions that tend to improve the use of the Glad Hand and the Pleasant Smile.
There is a peculiar smell to the salt of the lake water that I never have experienced anywhere else. Just west of the lake and along the tracks is an arm of the lake that fills with water in the spring during high water and later the water evaporates, leaving the country for miles around covered with white salt that glistens in the sunlight as far as the eye can see. A casual glance out of the window would make you think immediately of snow. The

mountains surrounding the lake and the mountain island in the lake are entirely devoid of vegetation. They are as bald as a billiard ball.
The lake looked very beautiful when we passed over it. The wind blew a nice cool breeze and the bluish green of the water made it an hour and a half of very pleasant traveling.
The lake rose about two feet this year and it has caused the Southern Pacific quite a little annoyance in looking after their track over the lake. In the winter and when there is a heavy wind from the south the waves dash up nearly over the track and the spray comes against the windows of the cars. The same beautiful big white sea gulls are as thick as ever and as they breed on the island and as we go so close to the island on the train we saw large numbers of them.
There are in the tourist car eight Philipinos who have been students in this country at government expense. Two were at Yale, two at Madison and the other four at two other colleges. They have been in this country for four years and are now on their way back to their native soil to work for the government for four years. I had a long talk with one that was at Yale. His father is a professor in a Spanish university at Manila. He is a very bright young fellow and looks like a very well behaved chap. They all speak Spanish and they tell me there are 42 dialects spoken in their country. They are all dressed as any young college chap here would dress and the porter of the car tells me they are very well behaved. It sounded funny at one time to hear them singing college songs in English. The youngest one is 20 and the oldest about 28. They have the college swing, with their little bull dog golf caps and their hip, full-peg pants and long dip-front sack coats.
In lieu of grass through Nevada the stations are decorated with cobblestones that are whitewashed. Where we would have a grass plot they have a level sand place terraced with these whitewashed cobblestones. The effect is pretty but it only makes the sun more glaring, and at these places the sun certainly does glare.
Early this morning when we reached California after going through 45 miles of snowsheds we came to a pretty little place and a boy beside the track was selling peaches at 10 cents a basket (holding about nine). You should have seen the business that that boy did. They grow thousands of baskets of them right around that country.
A Lively Dash.
Dr. J. T. Loughlin, of Rosholt, who spent last Wednesday in this city, had an exciting experience that afternoon with a horse that he had just purchased. He was driving south on Division street, and when opposite the residence of Prof. Collins the animal became frightened at a motorcycle that came from the opposite direction. Dashing into the Collins yard, the horse and buggy plunged into a lilac bush, throwing the Dr. out, but he retained his hold on the lines and stopped the animal. After getting out upon the street, where the motorcycle had been left standing by the owner who went to the doctor's assistance, the horse made a second attempt to get away, but was held in check by the driver, who escaped without injury.

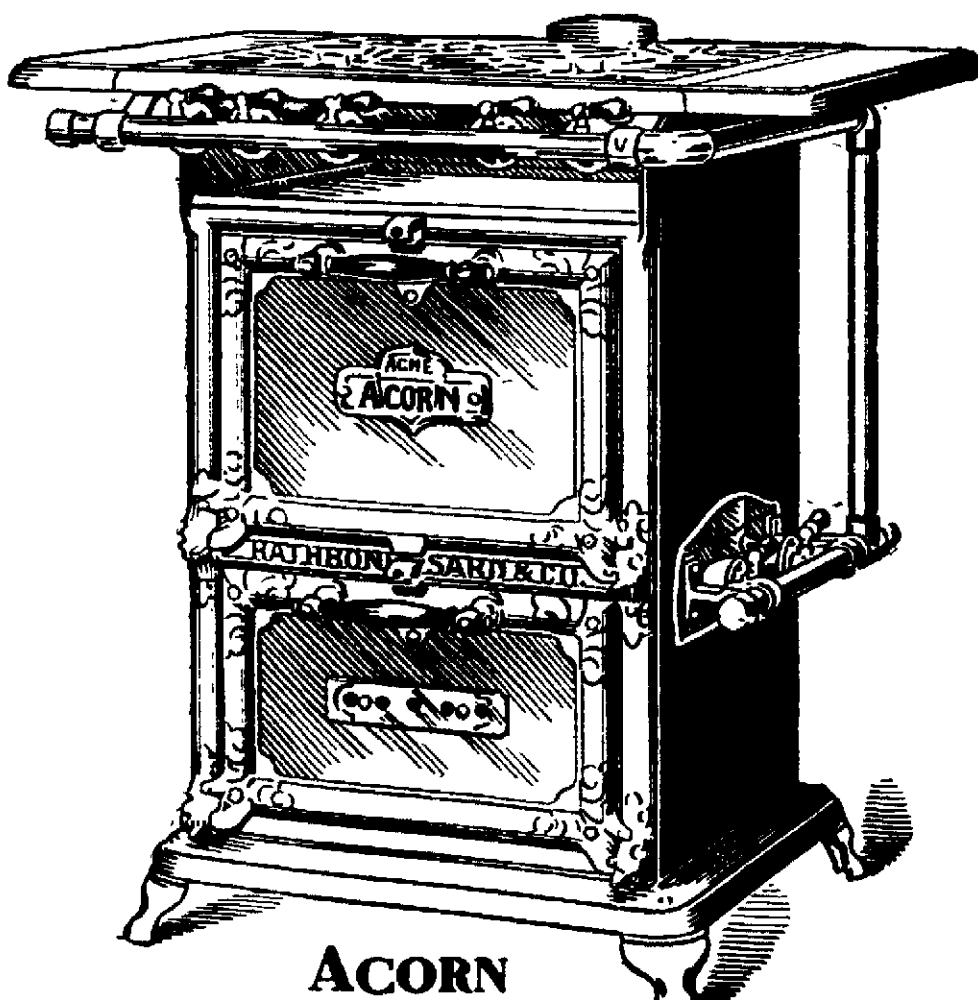

School for Tuberculosis Children.

An outdoor school for tuberculous children is conducted by the Bellevue clinic of New York City on the old Staten Island ferryboat. "The Survey," in speaking of the pupils, says, "For the most part these children are not very ill, but present to the lay eye simply the pale, under-developed and under-nourished types so familiar from many other causes than tuberculosis. The fresh, open air and the good, nourishing food at the camp are all that are needed to bring color and freshness to their cheeks and animation to their bodies and spirits. These most gratifying results have been obtained in almost every case among the children at the camp, who have numbered about fifty in daily attendance, and about one hundred in all during the past year."
To make proper use of the bodily vigor which results from the open-air life, practical forms of handwork are carried on part of the day. A remarkable fact concerning the out-door school is its successful maintenance in the winter months. The teachers are assigned work in the school by the authorities of the public school system.

Baseball Team Goes to Japan.

The base ball team of the University of Wisconsin, which is to leave Aug. 22 for Japan to play a series of ten games with the Keio University nine, will carry with it a letter from President Taft to the American Ambassador at Tokyo, requesting the courtesies of the embassy for the visitors.
"I am glad such a trip is to be undertaken," says President Taft in the letter, "as it can not but be of advantage to the universities in the encouragement of manly sports and athletics, and will lead to a better understanding between the universities of the two countries."
Dr. Charles McCarthy, Ph. D. '01, of the State Legislature Reference Library, will be the official representative of the university on the trip. Genkwan Shibata, of Toyama, who won special honors in political economy at the university this June, will be the business manager, and Edwin C. Jones, '07, Portage, will be the official reporter.
The members of the team, representing 12 Wisconsin cities, are as follows: Pitchers, D. S. Knight, '09, Bayfield, and C. M. Nash, '01, Grand Rapids; catchers, E. E. Barlow, '09, Arcadia, and Arthur Kleinpell, '11, Cassville; 1st baseman, Michael Timbers, '11, Mauston; 2nd basemen, John Meissner, '09, Milwaukee, and J. A. Simpson, '10, Shullsburg; shortstops, K. E. Fellows, '11, Lodi, and O. Lupinski, '10, Milwaukee; 3rd baseman, A. A. Pergandi, '10, Cedarburg; right fielder, Ralph Muckleston, '09, Waukesha; center fielder, H. B. Rogers, '09, Portage; left fielder, D. J. Flannigan, '11, Welcome.

SOUTH SIDE AND RAILROAD

Personal and News Items of More or Less Importance to Readers of The Gazette.

Miss Rosa Mueller, of Chicago, is visiting with Mrs. P. Trierweiler on Water street.

Mr. and Mrs. Michael Rose and Miss Catherine Rose are visiting relatives at Wausau and Merrill.

Miss Margaret Dorney is spending the week visiting her sister, Miss Sadie, at Grand Rapids.

Jas. B. Marshall went to Fond du Lac last Saturday to visit over Sunday with his daughter and son.

Miss Cavanaugh, of La Grande, Ill., is a guest at the home of Dr. F. A. Southwick on Church street.

Ed. Durand, of Minneapolis, and Archie Durand, of Princeton, spent Sunday at their home in this city.

Mrs. Victor Mason, of Marshfield, is visiting for a few days at the home of her sister, Mrs. James Blake, on Church street.

Mrs. J. Walther and son Paul and Genevieve Crago went to Milwaukee last Sunday for a couple of days' visit among friends.

Mrs. Robt. J. Berndt has been ill for a few days at the home of her father-in-law, W. F. Berndt, Sr., at the Columbia house.

Mrs. Carl Zorn has returned to her home in Minneapolis after a visit of a couple of weeks with her sister, Mrs. Omer Durand, in this city.

Mrs. John Ambrose returned from Owen last Saturday afternoon, where she visited for several days with her oldest son, John E. Ambrose.

Walter Eddy returned from his western trip last week, going as far as Portland, and met a number of former Stevens Pointers at different places.

Mr. and Mrs. M. Ruppold and daughter, Elizabeth, who had been visiting in the city, returned to their home at St. John, Calumet county, last Saturday.

S. M. and P. C. Galaty, accompanied by their wives, returned home to Chicago the first of the week after a pleasant visit here with F. E. Noble's family.

Thos. Feeley left for Fifield last Monday morning to spend the balance of the season at the summer resort of his uncle, Jas. E. Feeley, northeast of that village.

Miss Leda Barrows gave a six o'clock dinner to a number of friends, last Friday, at her home on Shaurette street, followed by a shower in honor of Miss Susie Smith.

E. H. Lampe and little daughter left on Tuesday afternoon's train for Milwaukee to attend the home coming. Mr. Lampe was a resident of the Cream City for four years.

Engineer Wm. McMullin of the Soo has been taking a layoff this week and is spending a few days on his farm in the town of Almond, and which he rents to a reliable tenant.

A special train from Montello carried about 700 people as far as Bancroft this morning, where they were transferred to the Northwestern line and taken to Wausau. A firemen's tournament is being held in the latter town today.

Chas. H. McCann went to Tomah Tuesday morning where he will be employed at millwright work for the next five or six weeks. Mr. McCann is associated with the D. J. Murray Mfg. Co. of Wausau and returned only a few days ago from Florida.

H. L. Bannister returned the first of the week from near Menomonie, Dunn county, where he owns a farm. There has been an abundance of rain in that section and crops are looking fine. Mrs. Bannister and children will be there for some weeks longer.

Mr. and Mrs. Peter Trierweiler, Jr., entertained about thirty friends at a o'clock dinner Monday evening in honor of Mrs. Charles Snyder, Mrs. Otto Feyder, Miss Clara Feyder, Miss Rosa Mueller, of Chicago, and Miss Mary and Clara H. Snyder.

Mrs. W. J. Dancy and Mrs. Martin Spellman returned home the first of the week from Greenport, L. I., where they were called a couple of weeks ago by the illness of their father-in-law, Mrs. M. L. Dancy, of her little child. Both have now returned.

Rev. Carl Schmidt left for his new home at Spencer Tuesday morning and was followed last evening by his family. Rev. Schmidt will make frequent visits to this city for several months, or until a permanent pastor is secured for the German Lutheran congregation.

F. C. Brown, who had been spending a couple of weeks very pleasantly with his sister and niece, Mrs. Anna J. Durfee and Mrs. F. H. Patterson, returned to Chicago last Monday. Mr. Brown is connected with The Dial, a leading literary magazine which is published semi-monthly.

Mrs. Ellen Leahy, who had been visiting for several months with the family of her brother, Nicholas Dunphy, near Michigan City, Ind., returned home last Sunday morning. Mrs. Dunphy and family are about to move to Stevens Point, the home of her husband's days, within the next year or two.

Chas. B. Baker will leave Thursday morning for Portland, Ore., to join his wife and daughter, Mrs. Frances, who have been in the western country several weeks. Mr. Baker expects to see the exposition at Seattle and visit other interesting places in the west. During his absence of a month D. W. Wilson will handle the cash bills on the Portland freight train.

Mrs. B. L. Skaltzky left for the west last Thursday morning, where Mr. Skaltzky has been for about two months. She will visit for several days at Roseman, Mont., with the family of Senator J. N. Kelly, and then join her husband, to locate in Washington or Idaho. The other members of the family will join him after a permanent location has been determined upon.

TWENTY-FIVE YEARS AGO

Articles and Items of News that Appeared in the Columns of The Gazette, Quarter of a Century Ago Today.

Harry Boston returned from a two months' visit to the east, last Friday morning.

John Ceary and wife were made happy last Friday by the addition of a boy baby to their family.

V. P. Atwell and wife are visiting relatives in New York. Miss Georgia Boyington accompanied them there last week.

Geo. J. Goodhue, Jr., who is foreman at the saw mill of John Sluethower at Auburndale, has been in the city for a few days.

Richard O'Keefe and wife, who left this city a few weeks ago for Merrill, became the parents of a little boy one week ago.

Mrs. P. C. Claffin and children, Miss Etta Cook and Miss Bertha Doty have been at Madison the past week attending Monona Lake Assembly.

Chas. Goltia, who has been interested in the restaurant business here for the past year or more, left for Minneapolis yesterday, where he has secured a position in a dry goods store.

Thos. Splawn, son of Mr. and Mrs. Patrick Splawn, died at the home of his brother-in-law, N. Gross, last Thursday forenoon, death being due to pneumonia. The young man was 24 years of age.

W. W. Spraggon's new residence on Ellis street is now nearing completion. This new structure was built by its owner for comfort and convenience. The basement is as large as the first floor and is divided into rooms such as kitchen, pantry, cellar, etc.

John N. Hodson, one of the millwrights employed at Clark's saw mill, had his shoulder quite badly bruised and wrenched, last Monday afternoon, by being carried on a large belt that runs the lath and shingle machines, and upon which he fell when stepping backward from a narrow staging upon which he was working.

Vet Crocker, who handles the mail on his own private train that runs between this city and Crocker's Landing twice each week, is figuring on having the government make the service more complete and give them mail three times each week. Vet has discontinued the grocery business in which he was engaged up there for some time past.

Chas. Dolloff, a resident of this city for the past 13 years, died at Cameron at about 3 o'clock last Saturday afternoon as the result of a fall from a bridge on the M. S. M. & A. R. R., now being built in the northern part of the state. Mr. Dolloff had charge of the bridge building and the accident happened last Wednesday afternoon. The remains were brought here and interred in the Episcopal cemetery.

Henry Welty died at his home on Ellis street, last Saturday morning after a lingering illness of over six months. Mr. Welty was born at Gettysburg, Pa., 46 years ago, and came to this city nearly 30 years ago. He enlisted in 1861 in the 5th Wis. Reg. for three years service, and on Jan. 1, 1865, re-enlisted in the 186th Pennsylvania, in which company he was promoted to 1st sergeant. He was married to Miss Mary Cadman of this city in 1866, and she, together with three children, Miss Minnie, Harry and Howard, survives him.

At 4:30 o'clock this afternoon Frank B. Lamoreux and Miss Lizzie B. Eddy will be married at the home of the bride's uncle, Benj. Burr. The ceremony will be performed by Rev. W. Henry Watts and only relatives will be present on account of the severe illness of Mrs. Burr, at whose home the bride-to-be has been living most of the time for the past several years. The groom is our efficient clerk of the circuit court, a young man who numbers his friends by the hundreds in all parts of Portage county. He spent one year at West Point and was admitted to practice at the bar last fall. Miss Lizzie was born in Stevens Point, is one of our best young ladies, and has a friend in everyone who knows her.

Cash on hand	13,548.43
Total	\$16,516.99

Report introductory Aug. 1, 1909, is as follows:

Papermakers are Beaten.

One of the best games of base ball of the season was played at the fair grounds last Sunday afternoon between the Papermakers and a nine composed of "has-beens" and some who still "are." The latter aggregation came out first best by a score of 3 to 0. Practically all the feature plays were made by the winning team. Al Chesack knocking a two-bagger, "Pat" Neuberger making a couple of sensational catches in center field, and several double plays were made by Hubbard, Siebert and Chesack. The plays and positions were:

Has-beens	Papermakers
Siebert	2b.....Oertel
Krems	3b.....Suchowski
Chasman	1b.....Fibleigh
Ash	ss.....Lutz
Chesack	lb.....Hartney
Hartley	c.....Ramace
Neuberger	cf.....Scribner
Blood	rf.....Myers
Hubbard	p.....Mary

Score by innings:

Has-beens	2	0	0	0	1	0	0	0	3
Papermakers	0	0	0	0	0	0	0	0	0

The Athletics went to Manawa last Sunday, where they were defeated by the home team in a score of 9 to 3. The Manawa boys made 8 scores in one inning, which is considered a record. The Athletics are still wondering how they did it.

The Eagles played a new combination known as the Specials near the water works, Sunday afternoon, and at the close of the game the score stood: Eagles, 14; Specials, 9. The batteries were, Eagles, Mosey and Kurseski; Specials, Friday, Hussin and Prychla.

THE DAMAGE WAS HEAVY

Stevens Point Brick Co. Has Heavy Loss of About \$2,500, Without Insurance—Fire Saturday Afternoon.

While a kiln containing nearly 500,000 brick was being burned out last Saturday afternoon, a spark from one of the several openings at the bottom, used for feeding the interior furnace with fuel, set fire to a pile of jack pine wood on the west side of the kiln and spread with remarkable rapidity. A couple of men were at work at the top of the kiln, removing the roof boards, as is the custom after the fires get well started, but when they discovered the blaze it had already gained so much headway that it was evident it could not be checked without considerable loss. An alarm was given, the several employees working hard to save the surrounding property, and fire company No. 1 was notified by telephone. The plant, however, is a considerable distance north of the city limits and there was not sufficient hose in the department to reach the fire, should the company have the right to make an attempt to do so.

Arrangements were finally made to get out the fire steamer, and with Nat. Towle as engineer they started for the brick yard. There is a well on the premises, located just north of the mill, about thirty feet in depth and 10x12 feet in width, and which was filled with water to within about four feet of the surface. The engine was placed beside this, securing sufficient water to keep going for nearly an hour and did valuable work in quenching the fire in lumber and wood piles. The mill, in which the clay is crushed and the brick formed, is situated several hundred feet west of where the fire started, and was on fire several times, but each time was put out with pails of water, although a large pile of wood further away was destroyed. All the lumber and timbers surrounding the kiln were burned, as well as several piles of lumber used in the construction of kilns and coverings, and several large piles of choice jack pine wood. The loss is estimated by the company at about \$2,500, without insurance, and consisted of 100 cords of wood and not less than 75,000 feet of lumber. The mill, machinery and residence on the premises, which were not damaged, were well protected by insurance. This is the first fire of the kind that ever occurred in a brick yard in this locality. The present officers of the company are: President—John Czaplewski. Vice Pres. and Mgr.—John Biesik. Secretary—Jos. Firkus. Treasurer—Jos. Kuchnowski.

Next Sunday's Game.

There will be a good game of base ball at the fair grounds next Sunday afternoon between the Foresters nine from Grand Rapids and a team representing the local Foresters and K. C.'s. Each side will bring forward their best players and all who attend may be assured of a hot contest. General admission will be 25 cents; ladies free and grandstand free.

Now at Rest.

The funeral of the late Mrs. Fred M. Reinhart took place from St. Paul's M. E. church at 4 o'clock last Thursday afternoon, Rev. C. F. Spray officiating, with interment in Forest cemetery. Hymns were sung by Misses Kelsey and Benson, R. B. Woodworth and Eby Clay. The pallbearers were F. H. Patterson, A. M. Gower, F. B. Roe, Edson Sawyer, Jas. Ballou and Geo. Buchan. Delegations from the L. O. T. M. and Ladies Auxiliary to the Order of Railway Conductors, to both of which Mrs. Reinhart belonged, were present, the funeral being largely attended. Relatives and friends from a distance were Mrs. Heinke of Plymouth, a sister of the deceased, Wm. Reinhart and Mr. and Mrs. Wm. Kleinmans of Fond du Lac, the first named a brother and the latter a sister of Mr. Reinhart, Mrs. David Beundung of Watertown, a niece, and Mrs. Weinke and daughter, Mrs. Morgenaure, of Ashland, the first named a cousin of Mr. Reinhart.

A Good, Clean Show.

Gollmar Bros., with their circus, menagerie, side shows and various other attractions, including the concert that always follows the close of the circus performance, spent last Friday in Stevens Point. The mammoth tent was well filled in the afternoon, and the attendance in the evening was also very satisfactory, but would have been larger on both occasions had not the weather been so dry and the roads so dusty that it was very uncomfortable for people to drive to the city from the surrounding country. The parade in the morning was pleasing, the menagerie contained a fine collection of the animal tribe, including ten of the largest and best trained elephants ever brought to this country, and the circus was firstclass, the Japanese performances being exceptionally good, while the marvelous feats by the Vanheiman-Tasmanian troupe of daring females were extremely startling. Gollmar Bros. not only carry out every promise they make to the public, but are showmen who do not allow anyone of questionable methods to become associated with them, hence the police had no occasion to cause the arrest of a single suspicious character.

Death of Young Milwaukeean.

George F. Osborn, beloved husband of Rosebud Foubare Osborn, died at the home of his parents, 1199 Madison street, Milwaukee, July 26, 1909, at 9:45 p. m., at the age of 29 years, 7 months and 5 days, after a severe illness with Bright's disease and dropsy, lasting 5 weeks. He is survived by a bride of 8 months, father, mother, one brother and two sisters. He was buried Thursday morning, services being held at St. Matthew's church, with interment in Mt. Olivet cemetery.

Mrs. Osborn, who is a former resident of Junction City, a daughter of Mr. F. X. Foubare, was ill at the time of her husband's death, suffering with appendicitis, but was able to be with her husband during his illness and last hours. He was taken sick while on a visit to relatives in Michigan, leaving there first to return to his work, and was taken worse after reaching the home of his parents, where he passed away. Previous to that the young couple had resided with her parents at 523 6th avenue, West Allis.

ANTI-TUBERCULOSIS EXHIBIT

University Extension Division Has Display at Council Rooms—Prominent Lecturers.

The exhibit of the Wisconsin Anti-tuberculosis Association, which is sent throughout the state with the co-operation of the extension division of the University at Madison, is now at the council chambers educating the people how to prevent the worst disease that ever infected mankind. It was the sale of the red cross stamps last Christmas that enabled the association to carry on this extensive campaign. The exhibit has been on a tour of the state since March 1, and Mr. W. O. Gloyer, person in charge of the exhibit, has lectured in all the large cities in the eastern part of the state.

An extensive program has been arranged so that everybody can hear the lecture. Lectures will be given every day at 4 and 8 p. m. The exhibit will be open from 9:30 a. m. till 9:30 p. m. For the lecture free tickets are being distributed, which can be obtained at the drug stores or at the exhibit. The admission to the lecture is by ticket. The following program has been arranged:

Wednesday—4 p. m., lecture by Mr. Gloyer, of Madison; 8 p. m., lecture by Dr. Walter's.

Thursday—4 p. m., lecture by Dr. Southwick; 8 p. m., lecture by Dr. Rounseville of Milladore.

Friday—4 p. m., lecture by Mr. Gloyer for children; 8 p. m., illustrated lecture by Harvey Dee Brown of Milwaukee. This lecture will be given either at the court house or public square if the weather permits.

Friday afternoon has been set aside for children and Mr. Gloyer will give them a special talk at 4 o'clock. This talk is of such a nature that any child above 8 years of age can understand it and every person ought to see that their children attend.

It is possible that the exhibit will be taken to St. Peter's church Saturday and a lecture given there in Polish, but nothing definite has been arranged. The exhibit will close Saturday at 6 p. m., when it will go to Chippewa Falls and continue its campaign.

"The disease of tuberculosis," said Mr. Gloyer, "is one that every one should know how to prevent, for it may attack the individual whenever the vitality of the body is low. At the exhibit and lectures the prevention and cure will be discussed. All questions will be answered by the lecturers and man in charge at 4 and 8 p. m."

This disease is annually taking 150,000 people in the United States, while in this state 2,500 people die. This city no doubt has its just proportion of a disease which is curable in its early stages. The factors of cure are nature's cure of sunlight, fresh air, food and rest. No medicine will cure the disease and whiskey only lowers the resistant powers of the body. Those who were instrumental in bringing the exhibit to this city say that a record breaking attendance will be had, for everybody is vitally interested. So keen is the interest that long before the exhibit was formally opened there were crowds at the council rooms.

The Speed Limit.

Nearly every automobile owner in the city attended a meeting at the council chamber, Monday evening, called by Mayor Cashin and Chief Hafsos, to talk over the speed regulations of autos and motorcycles within the city limits. The mayor said that many complaints had been made to him and the chief on account of drivers going too fast, some running 40 miles an hour, whereas an ordinance passed by the council places the speed limit at 10 miles an hour. The new state law, he said, requires all owners to register their machine with the secretary of state, to have proper lights on the front of their machine and also one on the rear so that the number may be seen at night. The clerk then read the law passed by the legislature in 1907, setting forth the duties of automobile owners, whose owners shall not drive faster than 12 miles an hour within the corporate limits of cities and villages and not to exceed 25 miles an hour on country roads. Non-compliance with the provisions of the law subjects auto owners to a fine of from \$10 to \$50, or a term in jail.

Several of those present took part in a discussion that followed, including E. H. Joy, D. E. Frost, Paul Koshollek.

Special Clearing Sale!

On account of our building operations we are obliged to make room, so we offer the following for the next two weeks:

- | | |

Open Evenings KUHL BROS.

Were Prize Winners.

At the annual picnic given by the employees of the Soo road, which was held at Menasha last Wednesday, several former Stevens Pointers were among the prize winners. Among them were Harold McCallum in the young men's running race, F. Skell in the fat men's race, Mrs. J. J. Schantz in the lean women's race, Frank Birch in the three-legged race, and Mrs. Jos. Freenor in the tug of war for married women. Robt. Taylor took the prize for not only being the oldest employee present, but also the lightest married employee. Mrs. Brazier was one of the prize winners for having the largest family on the grounds, C. E. Gobel and T. Davis for standing broad jump, and Mrs. F. Gobel in the bean guessing contest. The entertainment was marred by a heavy rain.

BIDS FOR PAINTING.

Bids will be received by the undersigned up to noon of August 8, 1909, for furnishing material and painting the outside of the Third ward schoolhouse two coats of paint, but to be submitted for white lead and oil or standard brand of mixed paint, to be named in bid. The right to reject any or all bids is reserved. F. J. Blood, Clerk of Board of Education, Stevens Point Wis.

A married man with a wife and two children wants a chance to work on a farm for a year or more, with house to live in. Have always lived on a farm, and ready to commence work at once. Address Wm. Kofnack, Stevens Point, Wis. w2
Jos. Schoettel and Frank Love left here Sunday morning for a trip to the west, and will incidentally endeavor to secure a claim on the Indian reservation. The first named has a brother, John Schoettel, at Seattle, and a visit with him for a few days will no doubt be an enjoyable part of the program.
The survivors of the 18th Wis. Infantry will meet in annual reunion at Waupaca on Wednesday and Thursday, the 25th and 26th insts. Several who served in this regiment still reside in this county, and all are requested to notify the secretary, E. G. Hart, Chilton, whether or not they will be able to attend.
Eugene Hein has accepted the principalship of the village school at Scandinavia and will begin his new duties about Sept. 1st. For the past couple of years Mr. Hein had been in charge of the Junction City schools. He is a graduate of the Stevens Point Normal and the oldest son of Mr. and Mrs. G. W. Hein.
Dr. Chas. L. Lind, one of Chicago's leading dental surgeons, is visiting a few days at the home of his sister, Mrs. J. L. Jensen, in this city. He had been at Grand Forks, N. D., a couple of weeks and was accompanied here by his niece, Miss Lottie Gilbertson, who will spend some time with local relatives.
Newspapers receive all kinds of advertising propositions, and one of the latest received at this office is an offer to furnish ostrich plumes in exchange for advertising space. The representatives of this paper would certainly attract attention if they traversed the streets with ostrichplumes or feathers stuck in their caps.
Four graduates of the Stevens Point Normal will be included in the teaching staff of the Waupaca city schools for the coming year. Miss Genevieve Heany will have charge of the fifth grade, Miss Winnifred Stinchfield the third grade, Miss Amelia Pope the first grade and Miss Elizabeth Stevens will teach kindergarten classes.
Mrs. J. N. Peickert and children returned from a four weeks' outing at the Waupaca lakes, last Thursday, and Mrs. A. G. Green and Misses Eda and Mayme Peickert arrived home Saturday evening. Mrs. Green again occupies her elegant home on Main street. E. A. Oberweiser and family having taken rooms at the McDill residence.
Mrs. M. C. Sherwood, of the Waupaca Veterans' Home, is visiting a few days with Mrs. C. E. Wert and other friends in this city. She returned last week from Virginia and Eveleth, Minn., having spent several days with the families of her son, Ray G. Sherwood, and Geo. W. Mulligan. Ray fills a good position on the Eveleth Star.

Mrs. J. M. Bischoff is attending the home coming in Milwaukee.
Miss Grace Howe was a guest of Mrs. Chas. Maddy, at Green Bay, last week.
Mrs. F. H. Nye, of Hotel Denver, is recovering from a serious illness of over two months.
C. O. Doxrud, one of Nelsonville's leading business men and best citizens, was in town Tuesday.
Mrs. John Sellers returned last week from a visit with her daughter, Mrs. Herman Bauer, at Fond du Lac.
E. H. Joy, Dr. E. M. Rogers and J. D. Giles left this morning in the former's automobile for a visit to Fond du Lac.
Kenneth Halveron has gone to Grand Forks, N. D., to spend several months with his brother, Alfred, who is located at that place.
Mrs. Dan Maddy and daughter are visiting with their son and brother, Chas. Maddy, at Green Bay, to remain during the week.
Miss Kate Ball returned Monday evening from East Liverpool, Ohio, where she had spent the previous six weeks in educational work.
Miss Culligan, of Milwaukee, had been a guest at the residence of E. J. Piffner, on Strongs avenue, for a few days during the past week.
Mr. and Mrs. Louis Port are among the Stevens Pointers who have gone back to Milwaukee to attend the home coming, which lasts all this week.
P. J. Kosholek, wife and son, and G. W. Andrae left Tuesday morning with their autos to attend the Milwaukee home coming for a couple of days.
Miss Frances O'Keefe, of Chicago, has arrived to spend the mid-summer vacation with her sisters, Mesdames McCarthy and Love and John O'Keefe.
Miss Laura Raymond, of Arnott, visited her brother at Peshtigo last week. On her way home she visited with friends at Green Bay, DePere and Milwaukee.
Mrs. Merritt and little daughter, Corine, of Fruitport, Mich., have been guests of the former's aunt, Mrs. Lon Myers, on Normal avenue, for a few days.
Dr. C. von Neupert, Sr., city health officer, has compiled his official report for the month of July, which shows a total of 8 deaths, 25 births, 4 marriages and 14 accidents.
W. G. Fordyce, cashier of the Ashland County bank at Butternut, spent last evening in the city as a guest of Geo. L. Rogers while on his way home from cities below.
Dr. and Mrs. S. W. Parowski and little child, of Chicago, who had been visiting at the home of the lady's parents, Jos. Glinksi and wife, returned to their home, Monday.
O. Parmeter, Jr., leaves here tonight or Friday for Bozeman, Mont., where he will meet his brother-in-law, Bert Skaltitzky, and look over that town with a view of locating. Mr. Skaltitzky has been in the west for three or four months.
Mr. and Mrs. John Jankowski, of Menasha, spent Monday and Tuesday in this city visiting the families of S. H. Worzalla and Jacob Wojak. The visitors were shown a good time and left here very enthusiastic over Stevens Point hospitality.
Mr. and Mrs. Henry Isherwood, of Sawyer, Door county, arrived here the last of the week, making the trip as far as Green Bay by auto, called to the town of Plover by the illness of his mother, Mrs. Jas. Isherwood, Sr., whose health has been poor for some time.
Mr. and Mrs. A. M. Copps returned from their trip to New York city and various points in the east, last Thursday, and Mr. and Mrs. Alex. Krembs, Jr., arrived Saturday morning, having stopped over at Cleveland to visit for a couple of days with Mr. and Mrs. G. M. Dahl.
Chas. Nason, Willis Boston, George Warner, Theo. Port and Geo. Atwell are members of a party who will occupy the Sellers cottage at McKinley Park for ten days beginning tomorrow. The young men will continue their business duties down town, going up each evening.
Wm. Bergholte and wife, of Oshkosh, visited here for a week at the homes of his brothers, Alex and Henry Bergholte. The Oshkosh gentleman is selling a steel and asbestos plate for use on gas stoves, which will keep eatables warm for several hours after the burners have been turned off.
Someone broke into Edward Crueger's chicken coop at 130 Spruce street, one night last week, and stole five of his flock. Mrs. P. A. Maloney and John Sellers also lost many chickens last week, dogs getting into the coops and killing them. Mrs. Maloney's entire flock of 28 was thus wantonly destroyed.
E. H. Freeman is now the owner of an E.-M.-F. "30" automobile, which was brought here by an expert chauffeur from Detroit the last of the week. Mr. Freeman, who is a traveling salesman and lives at the corner of Clark street and East avenue, expects to use the car in covering a portion of his territory.
Mrs. H. A. Schofield, who had been spending the summer at the home of her mother, Mrs. A. O. Packard, went to Augusta, Monday morning, for a couple of weeks. She and Mr. Schofield will then take up their residence in Superior, where the gentleman will be principal of the high school. He graduated from the Stevens Point Normal a few years ago and is rapidly rising in his chosen profession.
Having purchased a new five-glass rubber-tire Landau hack of the latest style and make, I am now prepared to fill all orders for weddings, parties, baptisms and funerals and I solicit your trade in all these; also train orders or calls of any kind. Leave day calls at residence, Tel. Black 113; Krembs' drug store, Tel. 27; H. D. McCulloch Co. drug store, Tel. 47. Leave night calls at barn, Tel. Black 97, and the Spot, Tel. 95. C. A. Cooper.
John Ament, Henry Sabatke and Arthur Oiler, while engaged in taking "dead heads" or sunken logs out of the river at Merrill, last Thursday, ran into a whirlpool with their raft, which upturned, and they were drowned. Two others, Fred Zimmerman and L. Ament, who were on the raft, succeeded in getting to shore. Sabatke leaves a wife and three children, but the other men were single, all young, the oldest only 25 years. Sabatke intended to leave with his family this week to locate on a farm in North Dakota.

Girl wanted for general housework. Call on Mrs. R. A. Oberlatz, 1113 Shaurette street.
B. B. Park, Frank Boyanowski and Essign Atwell transacted business at Grand Rapids, Tuesday.
Miss Crystal Bigelow returned home Tuesday from a six weeks' visit among friends at Minneapolis.
Services will be held at the Trinity Lutheran church next Sunday morning at 10:30 in the Norwegian language.
Miss Mabel Reton went to Wausau last evening for a visit at the homes of her uncles, Hugh Alexander and Thos. Malone.
Cement and painting contractors will be interested in the call for bids by the Board of Education. Read their ads. in this issue.
Mrs. Jas. B. Sullivan and Miss Josephine Schantz are attending the Milwaukee home coming and visiting Mrs. P. B. Gilmore, a former Stevens Point lady.
Mrs. James Quinn left for Neenah, Tuesday afternoon, to visit a few days at the home of her son, Wm. P. Quinn. The latter has been in very poor health for several years.
Mrs. Chas. Boyington is visiting at the home of her sister, Mrs. Jos. M. Marshall, and on her return to her home at Morse will be accompanied by her mother, Mrs. Mary Krembs.
The Woman's Foreign Missionary Society of St. Paul's M. E. church will hold its regular meeting in the church parlors, Friday afternoon at 3 o'clock. A 10 cent tea will be served from 5 to 7. All are invited.
Frank Peickert and wife are spending a couple of weeks enjoying an outing at Pike lake and visiting an uncle of Mrs. Peickert. Anthony Esker is waiting on patrons at Berens' barber shop during Frank's absence.
Mrs. M. T. Olin and daughter, Miss Millicent left here Monday morning for a six weeks' visit in the west. Most of the time will be spent with their sons and brothers, W. H. Olin at Portland and Fred Olin at Seattle, both of whom fill responsible and lucrative positions. Will is Pacific coast representative for the Chicago Great Western railroad and Fred is connected with a large lumber concern.
Alex. Couty and three children drove down from Milladore last Friday morning to attend the circus. Mr. Couty was engaged in the saloon business at Nelsonville for several years but recently traded his brick building and other property for an eighty acre farm about one and one-quarter miles above Milladore and forty acres near Marshfield. About thirty-five acres of the first mentioned property is under cultivation.
O. P. Briggs and son, Kenneth, and Miss Campbell of Minneapolis, and Miss Marguerite Hinkley of Abbotsford, arrived here last week in the first named gentleman's big red touring car. Mr. Briggs and Kenneth proceeded by rail to New York city where the senior gentleman attended a convention of the Foundrymen's Association, of which he is national president. The young ladies will be guests at the home of Thos. Gaines until the latter part of this week.
Tom Shaurette, a former resident of this city, and Emil Semrau, two employees of the Milwaukee road at Merrill, had narrow escapes from being buried alive, last Friday. While loading gravel onto a car at Pine River, near Merrill, the gravel bank suddenly caved in and they were buried under three or four feet of soil. Fellow employees got to work immediately, however, and soon rescued them after they had received only a few slight skin bruises.
Aug. Homsted, postmaster and druggist at Dorchester, spent Thursday night and a part of Friday in the city while on his way home from Waupaca, where a convention of Wisconsin postmasters was held the day before. Out of a membership of about 150, only 38 were present. "Gus" Homsted is a pioneer Stevens Pointer, coming here with his parents in 1857, but for over 30 years has resided "up the line," first at Colby and then removing to Dorchester.
L. D. Williams, a former Stevens Point young man, son of E. A. Williams of this city, is now county surveyor at Macon, Mo., to which position he was elected last fall. After the 1st of January he will also fill the position of highway engineer, having control of the road and bridge work in the county. The latter office being both lucrative and responsible. L. D. has lived in Missouri for a number of years, and his friends here will be pleased to learn of his success.

Anthony Esker, who learned the barber's trade at N. Berens' shop, under the Citizens National Bank, and had been employed there continually until a few months ago, is about to go to Kosholt, where he will rent the Fox Kingsburg Reed, whose childhood and shop. Mr. Esker will leave here about the middle of August. He is a first-class artist and a reliable young man in every way.
Miss Sadie Reed and M. C. Ewing, both of Wausau, were married at Minneapolis last Monday afternoon. The bride is a daughter of Mrs. Bertha Kingsburg Reed, whose childhood and girlhood days were spent in Stevens Point, and the groom is treasurer and manager of the street railway company at Wausau.

BEGIN RIGHT

Extravagance ruins character; train youth away from it. On the other hand, the habit of saving money, while it stiffens the will, also brightens the energy. If you would be sure that you are beginning right, begin to save.

It is better to be right than president. If you want to end right, begin right. You can size up a man by the way he spends his money. A Ten Dollar man cannot afford to buy a five dollar dinner, and a twenty dollar clerk cannot afford an automobile—either to own or to hire. Some day he will go broke—it is the pace that kills. Weststart men RIGHT. Why not you? One Dollar or more starts a Savings Account in this strong bank. We pay interest on time deposits. A checking account here saves you money. All business confidential.

Afraid of Ghosts

Many people are afraid of ghosts. Few people are afraid of germs. Yet the ghost is a fancy and the germ is a fact. If the germ could be magnified to a size equal to its terrors it would appear more terrible than any fire-breathing dragon. Germs can't be avoided. They are in the air we breathe, the water we drink.

The germ can only prosper when the condition of the system gives it free scope to establish itself and develop. When there is a deficiency of vital force, languor, restlessness, a sallow cheek, a hollow eye, when the appetite is poor and the sleep is broken, it is time to guard against the germ. You can fortify the body against all germs by the use of Dr. Pierce's Golden Medical Discovery. It increases the vital power, cleanses the system of clogging impurities, enriches the blood, puts the stomach and organs of digestion and nutrition in working condition, so that the germ finds no weak or tainted spot in which to breed. "Golden Medical Discovery" contains no alcohol, whisky or habit-forming drugs. All its ingredients printed on its outside wrapper. It is not a secret nostrum but a medicine or known composition and with a record of 40 years of cures. Accept no substitute—there is nothing "just as good." Ask your neighbors.

Served as coffee, the new coffee substitute known to grocers everywhere as Dr. Shoop's Health Coffee, will trick even a coffee expert. Not a grain of real coffee in it either. Pure healthful toasted grains, with nuts, etc., have been so cleverly blended as to give a wonderfully satisfying coffee taste and flavor. And it is "made in a minute," too. No tedious 20 to 30 minutes boiling. J. L. Jensen.

Weak women should read my "Book No. 4 for Women." It tells of Dr. Shoop's Night Cure. Tells how these soothing, healing, antiseptic suppositories, bring quick and certain help. The book is free. Address Dr. Shoop, Racine, Wis. All dealers.

The best dairy building in the country will be built upon the Wisconsin State Fair grounds in season for the fair to be held September 13-17. Wisconsin is entitled to this by virtue of its standing as a dairy state.

Having been compelled to swallow the bitter pill, and having finished the making of wry faces, the republican machine leaders are now looking sanctimonious and asking to be congratulated because Oregon legislators kept their promise.

AS TO LOSING MONEY.

A Case Showing the Importance of a Ten Dollar Bill May Reach.

"To some men," said a man now of simplest means, "the loss of \$10,000 might be a joke, and then to some the loss of a ten dollar bill might be a tragedy."

"Poor? Why, we were so poor that we had to count every cent, every penny. Not that we were miserable. We were very far from that. As a matter of fact, we were happy, but we certainly did have all the time to kill very close to the wind."

"There were four of us wife, two children and myself—and, bless you, how we did have to figure and scribble to make both ends meet. I've seen the time, many a time, when a nickel was of great importance to us, when it was the last cent for carfare. I often think what a blessing it was that we were none of us ever sick; that nothing ever happened to us. I don't know what we'd done if there had."

"I was going to tell you what it might be to some folks to lose a ten dollar bill."

"Ten dollars was the amount of our monthly rent, and whatever else we did we always saved out of my week's pay the weekly proportion of the rent, to have it ready when it was due. I always used to get a ten dollar bill in my pay envelope, and when it came to the last Saturday in the month we just used to take the ten dollar bill out of the envelope to pay the rent with, and then we had the amount we'd saved out of three weeks to go on for current expenses."

"Well, one last Saturday that happened to come three days before the end of the month we took the ten dollar bill out of the envelope as usual for the rent and as usual my wife put it away—she always looked after the finances—and there we were all comfortable and happy, with the next month's rent all ready, and then on the last day of the month, when she went to get it out to have it handy when the landlord came she couldn't find it!"

"If that wasn't a tragedy I don't know a tragedy when I meet it. I don't suppose I took it quite so hard as she did, and I'd have shown it as little as I could anyway on her account, but to her it was nothing less than a calamity."

"When the children had gone to bed we tore the house apart. We looked and looked and looked into every nook and corner over and over again, but that ten dollar bill, with all that it meant to us—and I doubt if you can imagine how much it did mean—was gone. That was the first thing we had on our minds when we woke up in the morning, and gloomy enough for us that morning was. And then when I was eating my breakfast in our modest dining room she looked in at the door from the kitchen, and I've found it," she said, and so she had, just where three days before she had hidden it away, and so was our great gloom changed to joy—to joy with a large, large J."

"Yes, sir. We got more now, by considerable, and now she has what she wants; now she doesn't have to skimp. In these days I take her home myself now and then a ten dollar bouquet. We can afford it. But I never shall forget as long as I live how we felt when we thought we'd lost that ten dollar bill or the joy that came to us when we found it, for, you see, how a loss strikes you depends so much on how much you've got."—New York Sun.

Climbs Up the Trunk.

The native elephant driver never has to bother with a step ladder in mounting his beast after he has trained him for a little time, for the easiest way to get up is to ascend by way of the trunk. Standing in front of the elephant, the driver grasps him by the ears, this being a signal that he wishes to mount, and the obedient monster promptly arches his trunk so that the master can easily step upon it and go right on up to the top of the elephant's head.

Tom's Wellwisher.

In a Philadelphia club a member was met not long ago by the announcement from a fellow member that a friend of both had fallen ill.

"I understand from the physician," said the first member, "that Tom has brain fever. He'll recover, but it's thought his mind will be a blank."

"I trust the diagnosis is incorrect," came in fervent tones from the second member, "inasmuch as Tom owes me \$100." Lippincott's.

Enthusiastic Photographer.

For once, father—Why did you bring that book with you? Pat—Love—That I might catch your expression of astonishment when I asked you for your daughter's hand.—Pittsburgh Courier.

Obedient Papa.

It takes a great man to make a good listener.—Heps.

CENTRIFUGAL FORCE.

Some of the Wonderful Properties of Rapidly Revolving Bodies.

It is probably well known to our readers that by means of revolving soft copper disks, the edges of which are served with diamond dust by beating it in, diamonds can be sawed up by means of sharp, rapidly revolving iron disks it is possible to cut through heavy steel armor plates of four to eight inches in thickness. These phenomena belong to a very interesting department in physics, the physics of revolving bodies, that doubtless still has a great deal that is remarkable to offer. The rotation of a wheel results in the phenomenon that keeps the wheelman or bicyclist without exertion free on his seat—i. e., the so called free axis. We can also observe it easily in a top, which, its equilibrium disturbed, as long as the rotation is rapid enough always resumes a certain position in regard to its axis without requiring pivot bearings. Rotation also exercises a tension producing effect on the substance of a revolving body, and it is this tension that in part is the soft saw referred to in the article efficiency. If, for instance, a disk of thin cardboard is caused by a suitable transmission to rotate very rapidly on the lathe the rotatory tension causes the card to behave like sheet metal.

As the Naturwissenschaftliche Wochenschrift states, the cardboard can in such case no longer be bent and if struck with a hammer gives off a sound as though we were striking bronze. This is, however, only the beginning. If we place on the shaft of an electromotor a disk of good paper, cut into an exact circle about eight inches in diameter, this paper disk can be made at the highest rotating speed of the motor to saw through cigar box wood. At the cutting surface it acquires a fine brown polish. The publication in question shows other interesting experiments. We can, for instance, fit on the shaft of the rotatory apparatus a drum, about which may be passed an annular closed little chain in such a manner that at the highest rotatory speed of which the motor is capable it can be slipped off the drum. The chain will then behave like a solid ring, roll across the table and when it strikes the ground bounce up like a hoop. The active principle on which all these tension phenomena are based is centrifugal force.

BASEBALL STRATEGY.

A Bit of Quick Thinking and Good Play on the Diamond.

The quickest thinking I ever saw on a baseball field was done by Tommy McCarthy, the Boston outfielder of years ago. Tom Browne, one of the speediest runners that ever played baseball, was on second base, and New York needed one run to tie the score. Jack Doyle, then a great batter, was at bat, and it seemed certain that a base hit by Doyle would tie the score and perhaps win the game, as there was but one out, and Browne was so speedy he could score from second base on almost any kind of a safe hit. McCarthy crept closer to the infield on left, realizing that, although he could throw with wonderful rapidity and accuracy, the chances were all against throwing Browne out at the plate unless he was close and the ball came to him quickly. Doyle drove a hard line hit straight to the left field. Browne went scudding toward third base. Doyle raced for first, and McCarthy plunged forward at top speed. The fielder reached the ball on its first bound, grabbed it and without stopping or looking threw with terrific force and perfect aim across the diamond into the first baseman's hands. Browne had stopped at third base. Doyle, who had turned first with the intention of sprinting to second, was caught standing still ten feet from first. The next batter went out on a fly, and Boston won the game.

After the game I asked McCarthy concerning the play. "Well," he explained, "Browne is a quick thinker. He saw just how hard that ball was hit and knew he would be thrown out at the plate unless I fumbled. Doyle doesn't think very fast, and, knowing that he would turn first and stop to see if I was throwing home, I threw across to first and caught him."

He figured that out while the ball was screaming through the air toward him, probably reaching his conclusions and making the decision in four-fifths of a second.—Hugh S. Fullerton in American Magazine.

"Handle With Care."

In her assumed character of mother little Miss Dorothy, "going on five," spanked her new doll so vigorously that the eyes dropped out. This accident seemed to make quite an impression on the young lady, and when it came her turn to be reproved in the good old fashioned way a few days later she glanced up from her mother's knee as the exercises were about to begin and plaintively observed: "Better not spank too hard, mamma. 'Member what happened to the doll!"—Philadelphia Ledger.

A Familiar Trait.

"After an absence of twenty years a Chicago man walked in on his wife the other day. She didn't recognize him. He sat down and kicked because dinner was late."

"Then she recognized him, eh?"—Kansas City Journal.

Daylight Only.

Mrs. Baker Mrs. Smith is wearing light mourning. Bobbie—What is light mourning, ma? Mrs. Baker—It's the kind that permits you to go to matinees, but not to evening performances.—Lippincott's.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of

Chas. H. Fletcher

and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature of

FOR YOUNG WOMEN

Conducted by the Sisters of St. Francis. OPENS TUESDAY, SEPT. 7th, 1909

ACADEMIC DEPARTMENT—Classical, Latin, Scientific, Modern Language, Commercial Courses. Seminary accredited to the University of Minnesota. Splendid advantages offered earnest, capable young women who have a purpose in study, to specialize in Piano, Voice, Violin, Art, Dramatic Expression, and Household Economics. Each Department graded into a leading higher institution of similar kind. — Home life of the students is ideal. Indoor and outdoor athletics, Literary, Musical and Dramatic Societies. Catalog, Booklet of Information, Department Bulletins mailed on application. Address — The Directress.

MEEHAN.

Dennis Parks had the misfortune to lose a valuable cow one day last week. The Gollmar Bros.' show attracted a good many of our people to Stevens Point last Friday.

Mrs. B. S. Ward of Plover visited here over Sunday with her parents, Mr. and Mrs. P. R. Slack.

Our school will begin next Monday, Aug. 9th, with Miss Grace Fox of Rudolph as teacher.

Gene Clendenning returned Saturday from Ladysmith, where he had been employed for the past two weeks.

C. Peterson and A. Parelius of Chicago are spending a two weeks' vacation here, being the guests of their cousins, Misses Ruth and Katie Boorman.

Mr. and Mrs. Lon Smart and Mr. and Mrs. R. C. Davis of Stevens Point were among the many to visit these parts in search of blueberries last week. They were also pleasant callers on old neighbors and friends.

Edith, the little four year old daughter of Mr. and Mrs. B. S. Fox, suffered a very painful accident which may yet prove to be very serious. While at play with her brother a bottle was broken and a piece of glass flew in her eye, penetrating the eyeball. She was at once taken to Dr. Alcorn at Stevens Point and an operation was performed. It is expected she will lose the sight of the eye if not the entire eyeball.

ROSHOLT.

Mrs. J. H. Golden and niece, Mary Skelly, were at Kaukauna Monday.

L. S. Jacobson of Elderton looked after business interests in town Monday.

Mrs. L. H. Moll called on relatives at Stevens Point the forepart of last week.

Miss Anna Farseth commenced a term of parochial school here last Monday.

Mr. and Mrs. Albert Gilbert are visiting relatives at Scandinavia and vicinity.

Little Miss Rosebud Dahly of Gillet was the guest of Miss Mary Skelly the past week.

Our village was well represented at Stevens Point, Friday, all taking in Gollmar Bros.' circus.

George Philbrick and David Simonis were looking over real estate at Calhoun and Ringle last Friday.

This section was visited by a nice fall of rain, Saturday evening, which has improved the condition of crops considerably.

The ladies of the United Workers' Society gave a surprise farewell party on Mrs. Bamford, Saturday afternoon, at which a very enjoyable time was had.

The basket social and dance given by the volunteer fire department at Olson's hall Friday night was well attended and was a grand success both socially and financially.

On August 1st Mr. and Mrs. Milton Rosholt took charge of the Rosholt Hotel as host and hostess, and we bespeak for them success, knowing that their guests will be entertained right royally.

Mrs. Bamford, who has had charge of the Rosholt Hotel the past year, has severed her connection with the same and gone to her home at Wittenberg. Mrs. Bamford has made many friends during her stay here who regret very much to see her leave.

MILLADORE.

Ole Knudson Sundayed at Merrill. Ed. Jadack of McDill was in town last Thursday.

Mrs. C. L. Petersen was a Stevens Point caller Monday.

Wm. Hulce and son Dale were Stevens Point visitors last week.

Mrs. Ehnman of Milwaukee is visiting her sister, Mrs. B. Liezen.

F. Schujan is here from Fond du Lac looking after his cheese business.

Thomas Keener of Amherst transacted business in our berg last week.

Joseph Konas is very sick with stomach trouble. Dr. Cress is caring for him.

Otto Krienke, our school principal, called on friends the fore part of the week.

Quite a few of our town people are taking advantage of the blueberry season.

Miss Mayme Ceary of Stevens Point is visiting this week with Miss Louise Hooper.

Mr. and Mrs. George Grede of Milwaukee were calling on old friends Saturday.

Joseph Pellner is walking on air. Cause: A boy, the first in the family. All doing well.

Miss Alta Whitmore of Spencer was the guest of Miss Helen Empey Saturday and Sunday.

About 15 of our town people attended the Gollmar Bros.' circus at Stevens Point last week Friday.

Miss Tena McCallin, who has been visiting at Waupaca for the past three weeks, returned home Saturday.

Harry Schwartzman expects to leave for New York city, Friday, where he will purchase a new line of goods.

Miss Florence Hook of Dorchester, and Miss Edna Becker of Sherry, were Milladore visitors Saturday afternoon.

Mrs. Ed. Jones is very sick with typhoid. Dr. Rounsville has charge of the case at the Marshfield hospital.

Jacob Verhulst, our local merchant and postmaster, attended a postmasters' convention at Waupaca last week.

Chas. Sherrin and Ed. Dufor and families of Marshfield passed through our town Sunday enroute to Waupaca lakes.

Mrs. John Hack of Chicago (formerly Kate Forest) is spending the summer with her parents, Mr. and Mrs. Joe Forest.

William Bry, who was badly bruised up by a boiler explosion on dredge No. 6 some time ago, is able to be around on crutches.

A charavari party called on our bachelor tailor Saturday and rendered some fine selections of bass drum, horn and rotary saw music.

Geo. Grady, wife and daughter of Milwaukee, who had been visiting with his sister, Mrs. Geo. Stashek, for the past week, returned home Monday.

John Kocian and sister, Mary, of Chicago, were called home last week on account of their brother Charley being very low with typhoid fever.

Mrs. Joe Peit and sister, Caroline Haas of Ladysmith, who have been visiting relatives and friends here for the past month, returned home Sat-

Harry and Myron Smith returned home last week from a week's encampment at Camp Douglas with Co. E. W. N. G. of Eau Claire, of which company they are members.

Miss Phillis Gebert returned home last week from the hospital at Oshkosh where she underwent an operation for appendicitis some time ago, and is improving very slowly.

Adam Paulus of Marshfield had a farm seeker looking over his farm last week. That is what we are looking for—good, prosperous and go-ahead farmers, some that will boost hard.

Emil Jadack and Lizzie Krause were married at the bride's home last week Wednesday. Rev. Jaqueth performed the ceremony. Quite a number of the young folks from town attended the wedding.

The famous Alvington family in their great vaudeville acts, black face comedians, singing, dancing and talking acts, will appear at Lang's hall Thursday night. Admission, adults, 20 cents; children, 10 cents.

Myron Smith, who has been visiting home for the past two weeks, left for Rice Lake Tuesday, where he will learn hardwood lumber inspecting with his brother Elmer, who is an inspector for the G. W. Jones Lumber Co. of Appleton.

Miss Anna Vyzral of Chicago, who visited with Mr. and Mrs. Joe Cherney for the past three weeks, returned home Saturday accompanied by Joe Bazal, who will stop off for a few days at Manitowoc and Kewaunee on his way home.

John Schlize, who recently sold his property to George Herdina, left last Wednesday with his son John for Pine City, Minn., where he will look up a location for a harness shop. His wife and children left for Lena, Wis., last Sunday, for a few days' visit, when she and her son James and daughter Anna will join Mr. Schlize.

The Milladore Cracker Jacks were defeated at Dancy last Sunday by a score of 3 to 4. The game was a very snappy one and it stood 0 to 0 up to the sixth inning. Harry Smith made his appearance for the first time as a pitcher for the locals. Homer Altenburg acted as umpire and made very good decisions. Our boys were treated very nicely by the Dancy people.

JUNCTION CITY.

Laura Stertz is on the sick list this week.

Mrs. E. Grummel is on the sick list this week.

Mrs. Joe Gratzik did shopping at Stevens Point Monday.

Geo. Stertz and Fred Culver went fishing to Mosinee, Friday.

Lottie Corcoran of Grand Rapids is visiting at the Stertz home.

Mrs. Jack Hook of Mellen was called to take care of Mrs. E. Hook.

Mrs. O. Akey of Rudolph visited her sister, Mrs. H. G. Grashorn, Sunday.

C. J. Heun is digging a well. He intends to build a cheese factory soon.

Mrs. Geo. Seamens returned after a few weeks' visit with relatives in Linwood.

Dr. Looze of Grand Rapids was called to attend Mrs. E. Hook, who is very ill.

Mrs. Mike Schultz and daughter Helen went to Grand Rapids to consult Dr. Looze.

A crowd of our young people attended the Gollmar Bros.' circus at Stevens Point Friday.

Mrs. E. Delery left for her home in St. Paul after a week's visit with her mother, Mrs. R. A. Case.

Six of our young men left for Brownsville, Minn., where they expect to stay several weeks threshing.

Mrs. J. E. Burns and son John of Stevens Point visited friends here between trains one day last week.

Misses Selma and Delma Swanson of St. Paul returned home after a few weeks' visit with Regina Coppia.

Mrs. Geo. Ciesler left for her home at Ashland after six weeks' visit with her parents, Mr. and Mrs. M. Schultz.

Sisters Sylvestra, Sabastina and Magdalena, have departed for the academy in Stevens Point, after teaching nine months in the St. Michael's parochial school.

KNOWLTON.

Mrs. Mary Wheaton, of Stevens Point, is spending some time here.

Misses Oressa and Etta Belle Winslow of Stevens Point have been recent visitors here.

Mr. and Mrs. A. Knoodler and son Willis were guests of the daughter and sister, Mrs. W. T. Guenther, Sunday.

Great quantities of blueberries and raspberries are fast being gathered by the thrifty housewife. Some have as many as two hundred quarts on their cellar shelves.

Miss Irene Guenther finished the elementary course at the Stevens Point Normal and returned to her home here Monday evening. The many friends of Miss Irene congratulate her.

Mrs. Alois Stark spent Sunday at Wausau with her young son, Joseph, who is still at St. Mary's hospital. He is improving, with hopes for a permanent recovery from the affliction of lumpy jaw.

Together with the Johnson Creek Lumber Co.'s plant, the United States Leather Co.'s large business operations, the C. E. Guenther saw mill, the St. Paul road's large crew laying steel with worktrain's headquarters here, and the creamery, all within our vicinity, with Knowlton the hub and center of it all, certainly we can count on our country place furnishing employment for many and various artisans. No one need be idle here. There has been a great influx of men looking for work.

A party of Stevens Point ladies and gentlemen are camping on Twin Island. They arrived Sunday, making the distance to within five miles of Knowlton on the steamer Wisconsin which became disabled at that point and the rest of the way was made overland. Notwithstanding the sudden termination of their boat ride they are now enjoying themselves in their pretty little colony on the island, which makes a pleasing picture to the passer-by.

A visit to the Johnson Creek Lumber Co. plant, recently, showed up a busy place. The planing mill was being run to its fullest capacity with rush orders. They manufacture a large number of grocers' and dry goods' boxes, which they are shipping, together with a fine quality of lath they are loading for various places. It is quite a colony of workers under the supervision of a reliable and gentlemanly firm. Frank Shekly, a recent graduate of Wausau High school, and the eldest son of a

member of the company, has assumed the position of bookkeeper and shipping clerk.

NELSONVILLE.

Oscar Moen is down from Rhinelander to spend two weeks.

Dr. Kaasoch and family are spending the week at Onondago lake.

Several from here attended Gollmar Bros.' circus at Stevens Point last Friday.

Mrs. Christ Sands and family of Milwaukee are visiting at the home of Mr. and Mrs. J. S. Loberg.

Misses Jennie and Myrtle Sands, Ruby Loberg and Mrs. R. J. Loberg spent Friday last at Waupaca lakes.

The rain last Sunday was very welcome and did a great deal of good. We could stand the pressure of a few more like it.

L. L. Loberg is building cement walks in front of his store building. They were very much needed as the walks were in poor condition.

Our base ball team was defeated at Plover last Sunday by a score of 7 to 6. Our boys had the game almost cinched as the score was 6 to 4 in the ninth inning with two out and one on bases, but then came the landslide and Plover won out.

AMHERST.

Miss Selma Smith is visiting relatives at Bloomfield, Waushara county.

Harvesting of small grain is well along and by next Saturday all will be in shock.

Miss Mamie Een commenced a fall term of school in the Iverson district last Monday.

Louis Zenoff and family moved from Stevens Point to this place and reside on John street.

There was a severe hail storm in the southeast part of town of Stockton Sunday morning.

Mrs. G. E. Jordan and Miss Rena Johnson are visiting at Auroraville, Waushara county.

Mrs. Martin Grover of Ladysmith is visiting friends and relatives in Amherst and Stockton.

The Amherst Regulars defeated the Ogdensburg team at the latter place last Sunday, 8 to 7.

Lime Lake Cubs were defeated by the Amherst Tigers on the fair grounds last Sunday, 12 to 10.

Miss Martha, daughter of Dr. and Mrs. Conrad Nystrum of Medford, is visiting at John Een's.

Dennis Glisczinski, Frank Emmott and Henry Hoffman attended services at Fancher last Sunday.

One of Alf. Wanty's sons, aged about 8 years, had the misfortune to fall down stairs and break one of his arms.

A. M. Penney and John F. Jardine of Waupaca and Len Starks of Chicago transacted business here last Saturday.

Mr. and Mrs. F. W. Kellogg and baby came up from Milwaukee Sunday for a few days' visit at the home of Mrs. Kellogg's parents, Mr. and Mrs. J. J. Nelson.

At Arnott Next Saturday.

Portage County Union, A. S. of E., will meet at Arnott, Saturday, Aug. 7th at 10 o'clock a. m. Dr. J. Weller Long, national lecturer, will speak in the afternoon. Every farmer in the county should come and hear him. F. McGown, county corresponding secretary.

Another Insane Man.

Jos. Pusdrowski, whose family of a wife and three children live at 1402 Clark street, was examined as to his sanity this morning by Drs. Southwick and von Neupert, Jr., and will be taken to Oshkosh. Mr. Pusdrowski is a laborer, about 40 years of age, and for the past three years has been subject to epileptic fits.

Eastward Bound.

Misses Anna Simonis, Grace Doxrud, Cora Loberg and Laura Gordon, of Nelsonville, left for Buffalo, N. Y., this morning to spend a few days in that city, and from there will take in sights of the great Niagara Falls and the surrounding interesting places. The young ladies will travel to Buffalo from Detroit on one of the lake steamers and the return trip will be made by rail, and they will visit at several places in Michigan. The length of time they will spend away is undecided.

Milwaukee Couples Married.

Vene B. Gormley and Miss Josephine Fergus, both of Milwaukee, were married in that city on Tuesday of last week, and the following few days were spent with friends at Fond du Lac. The groom is a former Stevens Point young man, a son of Mr. and Mrs. Henry E. Gormley, who now reside at 1912 Chestnut street, Milwaukee, the father being in the Central service while here, and also filled the position as alderman from the 5th ward for two years. Ralph is also a railroad man, an energetic, worthy young man, and his boyhood friends here will certainly be pleased to know that he has joined the great growing army of benedicts.

Spencer Leverett Case and Miss Esther Elizabeth Chatfield, of West Allis, a suburb of Milwaukee, arrived here on the 12:30 train last Thursday, and two hours later were married by Rev. James Blake, pastor of the Baptist church. They were accompanied by Miss Florence Case, sister of the groom. When Mr. Blake was pastor of the Baptist church at West Allis, a few years ago, the groom was one of his promising young parishioners, and to the friendship then formed is due the fact that the ceremony was performed here.

OUR MARKETS

(Grain and feed quotations are given us by telephone every Wednesday noon by the Jackson Milling Co. while V. Belach furnishes the prices on meats, butter, etc., and E. M. Capps the prices on hay and potatoes, and farmers and buyers can depend on them.)

MRS. IRA BARKER DIES

Prominent Stevens Point Lady Answers Final Summons—Was Ill a Long Time.

After an illness of about five months, the last three months of which she was confined to her bed, a sufferer from cancer of the stomach, Mrs. Ira Barker passed away at the family home, 126 Spruce street, at 5 o'clock last Friday evening. Her long sufferings were borne with true christian patience and fortitude.

Born at Wells, Hamilton county, N. Y., May 29, 1843, Tryphena Topping came to this county with her parents when a girl and on May 19, 1860, was married in this city to Ira Barker, the ceremony being performed by Elder Cooley, of the Baptist church, at the Lloyd House, afterwards the E. D. Brown residence, located on the present Normal school grounds. After a residence of a few years here, Mr. and Mrs. Barker located on a farm near Arnott, where they lived until 1886, when they removed to the city and had lived here ever since. To them six children were born, one son dying in infancy and a daughter, Mrs. Ethel Wherritt, wife of Chas. H. Wherritt, of Marshfield, passed away ten years ago. Those who survive, besides the husband, are Mrs. Kate Richmond of Dancy, Mrs. Edith Wilcox of Chicago, Mrs. Jennie Bennett of Trinidad, Col., and Jesse U. Barker of Birmingham, Ala. She also leaves a sister and two brothers, Mrs. S. W. Andrews and Volney Topping, of this city, and Faye Topping, of McDill.

Mrs. Barker was a sincere, christian woman, having been a member of the Methodist church for the past thirty-five years, and since removing to the city had been affiliated with St. Paul's M. E. church, a consistent worker in the ranks in so far as her health would permit. She was ever kind and gentle, of a loving, refined nature, and wherever she went she scattered rays of sunshine and hope. The good works she performed here below will ever be revered by family, relatives and friends.

The funeral took place from the residence at 2 o'clock Monday afternoon. Rev. C. F. Spray of St. Paul's M. E. church officiating, with interment in Forest cemetery. Hymns were sung by a quartette consisting of Misses Ethel Coye and Jessie Hill, W. B. Buckingham and Lawrence Hill. The pallbearers were W. S. Young, Rupert Ward, C. W. Anderson, F. B. Roe, Henry Johnson and Frank Gano.

Local News Notes.

John C. Winkler is here from Redgranite for a week of much needed rest.

C. J. Heun, treasurer of Carson township and a general merchant at Junction City, was in town today.

Chas. H. Cashin went to Fond du Lac on this morning's train, where he will attend to law business during the day.

Everyone is cordially invited to attend the ice cream social to be given on Rev. W. J. Rice's lawn, next Wednesday afternoon and evening.

Mrs. P. A. Maloney and Mrs. Henry Heil were called to Fond du Lac the first of the week on account of the death of the first named lady's brother.

Mr. and Mrs. B. T. Smith and Mr. and Mrs. Chas. Flint, of Council Bluffs, Iowa, arrived here the first of the week for a visit with the ladies' sister, Mrs. J. L. Packard.

The ladies of St. Stephen's church will give an ice cream social on the parish lawn, next Wednesday afternoon and evening, and extend a cordial invitation to all to be present.

Misses Peake and Coffin, former members of the Normal faculty, who had been visiting with Miss Fitzgerald and other friends in this city for several days, returned to Oshkosh this morning.

John N. Peickert has been laid up at his home on Main street since last Friday, suffering with quinsy, but is on the road to rapid recovery at present. Alex Bandow has been assisting in the meat market during his illness.

Mrs. L. R. Lamb has returned from an outing at Waupaca chain o' lakes and will be ready to begin her piano instructions next week. Her daughter, Miss Winnifred, accompanied her home, but has returned to the lakes for a few days.

Geo. E. Oster, who makes his headquarters at Peoria, Okla., will arrive in the city in a couple of weeks to remain here and at the Waupaca lakes for some time. Mr. Oster and Claude Potter own the controlling interest in a mine at Galena, Kansas, and also a large livery stable at Nowata, Okla., while the former owns some good oil wells and has charge of silicate mines at Peoria, of which he is also part owner.

=====

Warm Weather SHIRTS

A. J. CUNNEEN & CO.

have just received another consignment of Shirts for warm weather.

Mohair, Pongee, all kinds of soft shirts with or without collars

PRICES \$1.00 to \$2.50

A. J. Cunneen & Co.

455 Main Street

A picnic will be held at Lake Emily next Sunday, given by a number of residents of Amherst Junction, and among the special features will be two games of base ball between leading clubs. An interesting program is being arranged.

The schools at Junction City and Plover, which belong to the grade of the first class, will each receive the sum of \$300 from the state, while the Amherst Junction, Bancroft, Nelsonville and Rosholt schools, belonging to the second class, will receive \$200 each.

Union services will be held at the Baptist church next Sunday evening, beginning at 7:30 o'clock, when Rev. C. F. Spray, pastor of St. Paul's M. E. church, will preach on the subject, "Is the world growing better or worse?" A general invitation is extended.

L. L. Nelson, local representative at Amherst Junction for the A. M. Penney Co. of Waupaca, wholesale dealers and shippers of potatoes, was a business caller in this city today.

Nelson is also one of the leading dealers in flour, feed, salt and coal at the Junction. He reports the potato and corn crop in his vicinity as looking first class, while the yield of oats will be less than one-half that of other years. Rye will about average the crop grown during the past five years.

Miss Kate Geraughty, of Kansas City, Kas., has been visiting in Wisconsin for the past couple of weeks and is now the guest of her aunt, Mrs. Moses Leary, of Custer, and her cousin, Mrs. Peter Jacobs, of Arnott. Before returning home, Miss Geraughty expects to spend a week at Merrill with relatives. The young lady is a daughter of Edward Geraughty, one of the Old White School boys and a boyhood friend of the writer and a number of other Stevens Pointers.

Good Crops in Dakota.

Arthur Van Order, of Jordan, returned last Saturday afternoon from a several weeks' visit at Hansboro, N. Dak., with his son Myron and brother-in-law, O. L. Sande, who are engaged in the general merchandise business there. There has been plenty of moisture in that portion of North Dakota and crops are looking fine, but the further east Mr. Van Order came on his homeward journey, the drier and hotter it got, he being literally covered with dust on his arrival.

501 Main St. Stevens Point, Wis.

BIDS FOR CEMENT WALK.

Sealed bids will be received by the undersigned up to Monday noon, August 9, for laying and furnishing the filling necessary for approximately 5,000 square feet of cement walks at the Third and Fourth ward and high schools, said walks to be laid with Atlas Red Dragon, or Whiteball cement, not over 50 feet to the barrel; work to be finished on or before Aug. 28, 1903. The right to reject any or all bids is reserved.—Frank J. Blood, Clerk of Board of Education, Stevens Point, Wis.

Water Works Test.

The much talked of water works test was held last Thursday afternoon, eight streams being turned on at 1 o'clock and maintained for five hours. At the Coye Furniture Co. plant a pressure of 65 lbs. was shown; at Shaurette and Strongs avenue the same; on Patch street, 6th ward, 64 pounds; at the fair grounds, 68; N. Second and Washington streets, 78; on Franklin street, 87; West Side, 62. Hydrants were also attached to at two other points, one at a time, and streams were thrown horizontally from 125 to 139 feet. Considerable wind was blowing during the afternoon, and it was difficult to estimate just how high the streams were thrown, which according to the company's franchise, should be 100 feet, although the state law only requires a certain pressure, which it is said they maintained in this test.

Are Doctors Any Good?

Foolish question! Yet some people act as if a medicine could take the place of a doctor! The best medicine in the world cannot do this. Have a family doctor, consult him frequently, trust him fully. If we did not believe doctors endorsed Ayer's Cherry Pectoral for coughs and colds, we would not offer it to you. Ask your doctor. No alcohol in this cough medicine. J. C. Ayer & Co., Lowell, Mass.

If we did not believe doctors endorsed Ayer's Pills for constipation, biliousness, sick-headache, we would not offer them to you. Ask your own doctor about this.

Latest News of Interest
Boiled Down for the
Busy Man.

PERSONAL.

Leslie M. Shaw, former secretary of the treasury, in an address at Chautauqua, N. Y., said the people had made cowards of their congressmen and that Hearst would beat La Follette for the presidency if Roosevelt, Taft and Bryan should die.

Gov. John A. Johnson of Minnesota was the orator and central figure of "Swedish day" at the Alaska-Yukon-Pacific exposition at Seattle. Thousands of Swedes from all parts of the country took part in the festivities.

John Galvin, vice-mayor of Cincinnati, took the oath as mayor, succeeding the late Col. Leopold Markbreidt. President Reyes of Colombia resigned and his successor will be elected August 3.

Prof. Charles Zubelin, sociologist of Boston, in an address at Chautauqua, N. Y., called E. H. Harriman a financial pest.

Representative Tawney of Minnesota, replying to a magazine article, assailed Dr. Charles Richard Van Hise, president of Wisconsin University.

A report was received in New York that Mrs. Emmeline Pankhurst, the suffragist terror of England, is coming to this country to stir up the women.

GENERAL NEWS.

Incomplete reports from the district devastated by the earthquake in Mexico indicated that more than 100 persons lost their lives and several towns were nearly destroyed.

Noah K. Marker, the absconding assistant cashier of the First National bank, returned to his home in Tipton, Ind., was arrested, taken to Muncie and released on a \$10,000 bond. He said he had been fishing in Missouri and returned to spend his birthday with his family.

Following the report that the rebels had surrendered in Barcelona and the Moors had retreated from Melilla, official announcements given out at Madrid said the situation in Spain was improving. It is said 400 were slain and 1,000 wounded in the Barcelona battle.

Orville Wright won the \$30,000 prize offered by congress, surpassed the government's requirements and set a new speed record for aeroplanes, in the final test at Fort Myer.

Harry Thaw's belief that he is a person of extreme ability may be the bar that will keep him in the madhouse, judging from the pertinent questions asked by Justice Mills who is hearing the sanity probe case.

Phillip Swift, son of Edward F. Swift, the Chicago packer, was seriously injured when his automobile, running a mile a minute, struck a telephone pole at Lake Geneva, Wis.

A person seeking revenge turned off the ventilating apparatus in a coal mine at Pittsburg, Kan., and 40 miners were overcome by gas.

When his launch caught fire in mid-stream, Attorney Fred Dicke of Two Rivers, Wis., leaped into the water took a rope in his teeth and pulled the boat to shallow water where three girls who had been badly burned sprung into the stream and saved themselves.

Two couples were married by Rev. George Whitehead of New York late at night, while the pastor was garbed in his pajamas and was barefooted.

Roy Griswold, who was arrested at Georgetown, Col., on suspicion that he was the slayer of Peter Waeltz at Belleville, Ill., proved an alibi and was released.

Claude Brooks, a negro, was hanged at Kansas City, Mo., for the murder of Sidney Herndon, a well-to-do real-estate owner, formerly of Tyler, Tex., Jan. 13, 1908.

It is announced that the government is planning to expend \$6,000,000 on fortifications at San Pedro, Cal.

The murdered body of an unidentified man bound hand and foot was found by children in the woods near Randall, O.

Night riders have warned the builders to cease work on a new schoolhouse near Bethpage, Tenn., close to the Kentucky state line, and they have demanded the resignation of a trustee.

Republicans of Nebraska, in convention, endorsed President Taft's tariff policies and declared they would approve his action if he sees fit to veto the bill.

Balloons of St. Louis struck a mid-summer snow storm two miles above Havana, Ill., and were forced to land.

Detective Frank Wagner, who told the senatorial investigating committee that he had seen Stephenson aid pay money to members of the Wisconsin legislature, was convicted of perjury at Madison.

Mrs. William Jennings Bryan announced that the family would not live in Texas except during the winter months, but would continue to make their home at Lincoln, Neb.

Joseph H. Leison of Indiana, Joseph P. Walker of Denver, Col., and J. J. Harrington of Hartsell, Col., have sued Benjamin Marks, Ernest E. Hart, Jr., John J. Spindler, James C. Maybray and the First National Bank of Council Bluffs, Ia., for the recovery of money alleged to have been lost in sporting transactions.

The plant of the Murray & Nickel Manufacturing Company, located at South Elgin, Ill., burned. Explosion of a large milling machine started the fire. The loss is said to be \$109,000.

The tariff conferees signed the Alrich-Payne bill and reported it to the house after President Taft had whipped several of the insurgents into line for downward revision.

A report from Washington says James Wilson of Iowa, secretary of agriculture, who has been a cabinet officer longer than any other man, will resign in January and probably will be succeeded by Representative Scott of Kansas.

Eleven persons died in Chicago from heat and injuries sustained in an electrical storm.

District Attorney Jerome, after two days of grueling examination of Harry Thaw, failed to make the slayer of Stanford White show any signs of insanity.

Harry C. Pulliam, president of the National League of Professional Baseball Clubs, died in New York from the wound he inflicted when he shot himself in the head.

A barber at Winthrop Harbor declares he shaved off the beard of a man answering the description of Judge Clarkson, who disappeared from Kenosha, Wis.

The Alaska-Yukon-Pacific Exposition company at Seattle has offered \$25,000 for a race between either of the Wright brothers and Louis Bleriot, the French aviator who made the successful aeroplane flight across the English channel.

Harrison S. Green, a prominent Milwaukee lawyer, and five other passengers were hurt when a Chicago, Milwaukee & St. Paul train was wrecked at Duplainville, Wis.

The Chicago grand jury, which has already indicted a police inspector, a detective and others, returned indictments against 20 keepers of illegal establishments.

Fire caused a loss of \$10,000 to buildings in Philo, Ill.

Arthur Eulan, John Ament and Henry Zebotski, while raising sunken logs from the Wisconsin river, about two miles south of Merrill, Wis., were drowned.

William H. Marker, cashier of the First National bank, Tipton, Ind., whose brother fled after stealing more than \$100,000, resigned.

Mrs. John Mullarkey shot and killed Edward Axline and then committed suicide at Bellevue, Ky.

Six hundred miners of District No. 11 in Indiana have been ordered to return to work pending a review of their strike difficulty by T. L. Lewis, the national president.

W. P. Kreis, a union pressman, was shot and seriously wounded at Atlanta, Ga., by G. W. Stovall, a non-union pressman, who was attacked by union sympathizers aroused by a strike.

Albert Reece, 78 years old, of Danvers, Ill., was sentenced to one year in the federal prison at Leavenworth, Kan., for illegally drawing a war pension for 18 years. He drew a total of \$2,000.

Harry Thaw showed no signs of insanity in his first day on the witness stand and more than held his own in a battle of wits with District Attorney Jerome.

With his kingdom facing civil war, King Alfonso declared martial law throughout his domain in an effort to check the riots which have already cost several hundreds of lives.

A dog is held prisoner in a Georgia jail and will be used as a witness against a negro who is charged with assaulting a woman. His mute testimony is expected to free the prisoner or send him to the gallows.

County officials at Peoria, Ill., decided to ask the next state legislature to pass a law providing whipping posts for men who abandon and beat their wives.

Roy Blake, a traveling photographer, arrested in Denver, Col., at the request of a former Belleville, Ill., woman who says he killed Peter Waeltz, a Belleville photographer.

Police Magistrate Grannan of Baltimore acquitted Senator Stone of Missouri and said the senator was justified in slapping a negro, waiter on a Pennsylvania train, when the black was impudent to him.

William McCracken of Osage county, Okla., is under arrest in London, Ky., charged with feigning death to swindle an insurance company out of \$5,000.

TARIFF MEASURE MAKES CUT IN MANY SCHEDULES

Fight for Lower Duties on
Wood Pulp and Print
Paper Is Won.

SLIGHT INCREASE IN RATES ON
HOSIERY.

Metal Schedules Are Lower—Duty on Rough Lumber Changed from \$2 to \$1.25 per Thousand Feet—Sugar and Tobacco Schedules Remain Substantially as Under the Dingley Bill—Little Change in Wool Duties.

Washington.—Tariff rates under the new measure, on the most important articles of consumption, have been decided on as follows:

In the lumber schedule the only increases were those on shingles from 30 cents to 50 cents per 1,000, and on briar wood and laurel wood for the use of pipe makers from the free list to 15 per cent. ad valorem. The rate on sawed lumber was decreased from \$2 per 1,000 to \$1.25 per 1,000. There was also a diminution on timber from one cent per cubic foot to one-half cent, and on sawed boards of white wood and kindred woods from \$1 per 1,000 to 50 cents per 1,000. The reduction in the differential rates in favor of dressed lumber averaged about one-third of the Dingley rate. Paying posts, railroad ties and telephone poles are reduced from 20 to 10 per cent. ad valorem; clapboards from \$1.50 per 1,000 to \$1.25; laths from 25 cents to 20 cents per 1,000, while fence posts and kindling wood were taken from the dutiable list and placed on the free list.

The only change in the sugar schedule consisted of a reduction of five hundredths of a cent in the differential on refined sugar.

In agricultural products broom corn was taken from the free list and made dutiable at three dollars per ton. Hops are increased from 12 to 16 cents per pound. There are also increases on lemons, figs, almonds, pineapples and chicory root. The reductions in the agricultural schedule covered bacon and hams from five to four cents per pound, lard from two to one and one-half cents, fresh meats from two to one and one-half cents, and starch from one and one-half to one cent per pound. Tallow, wool grease, dextrin, peas, sugar beets, cabbages and salt were also lowered.

The wine and liquor schedule was increased throughout to 15 per cent. over the Dingley rates.

The cotton schedule was reconstructed and readjusted to bring the duties up to those collected during the first four years of the operation of the Dingley law and to the rate then collected under that law. Since that time the rates have been lowered. In some cases from 60 to 6 per cent by court decisions. These new rates are equivalent to an addition, on the whole, of three per cent. ad valorem increase over that collected under the present law for last year.

Cotton Hosiery.

Cotton hosiery, valued at not more than \$1 per dozen is increased from 50 to 70 cents per dozen pairs; more than \$1 and less than \$1.50 per dozen pairs, from 60 cents to 85 cents per dozen pairs; more than \$1.50 and not more than \$2, from 70 cents to 90 cents per dozen pairs.

The remaining rates on stockings are the same as under the present law.

Hemp is increased from \$20 to \$22.50 per ton and hackle hemp from \$40 to \$45 per ton. The cheaper laces remain as in the present law, but there is an increase from 60 to 70 per cent. on some of the higher priced laces. In this schedule single coarse yarns are reduced from seven cents to six cents per pound and gill nettings from 25 to 20 per cent. ad valorem.

There was a general reduction in carpets and mats.

A reduction from 20 cents to 15 cents is made in hydraulic hose. Oil cloth, including linoleum, was reduced about one-third.

There was practically no change in the wool schedule from the rates of the Dingley law, but there was a readjustment between tops and yarns and a small decrease on cloths with a cotton warp.

Mechanically ground wood pulp was exempted from duty and placed on the free list with a provision for a countervailing duty against Canada.

The lower grade of printing paper was reduced from \$6 to \$3.75 per ton and the higher grade from \$8 to \$3.75. There is an increase on surface coated paper and lithographing prints, including postcards and cigar labels.

Common window glass of the lower sizes, in which the imports are heavy, is given a reduction, and where changes were made in the chemical schedule there was a general decrease, except upon such articles as fancy soaps and perfumes, which were increased.

Probably the most marked reductions throughout any schedule in the bill as a result of the action of the two houses and of the conference committee are found in the metal schedule. Beginning with a decrease in the rate of iron ore from 40 to 15 cents per ton, there is a general reduction throughout that portion of the bill, pig iron going down from \$4 to \$2.50 per ton, and scrap iron from \$4 to \$1. The reduction on many of the items in this schedule amounts to about 50 per cent., and this reduction includes steel rails.

Other reductions in the metal schedule affect polished sheets, rolled sheets of iron, steel, copper, or nickel, steel ingots, cogged ingots, blooms and slabs; round iron or steel wire; steel bars or rods, cold rolled, cold drawn, or cold hammered, or polished, anvils, axes; blacksmith's hammers and sledges, track tools, wedges and crowbars; bolts; cast iron pipes, cast hollow ware; chains; lap welded or jointed iron or steel boiler tubes; cut nails and spikes; horse-shoe nails; wire nails; spikes, nuts and washers; cut tacks; steel plates engraved; rivets; cross-cut saws, mill-saws, circular saws, pit and drag saws, steel hand saws and all other saws; screws; wheels for railway purposes; aluminum; momazite sand and thorite.

Bituminous coal goes down from 67 cents to 45 cents per ton, and there are reductions on gunpowder, matches and cartridges. Agricultural implements are cut from 20 to 15 per cent. ad valorem.

Hides were placed on the free list, while the rate on band and sole leather is reduced from 20 per cent. to five per cent. ad valorem, on dressed leather from 20 per cent. to 10 per cent.; boots and shoes from 25 per cent. to 10 per cent.

Fireworks are increased from 20 per cent. ad valorem to 12 cents per pound; wearing apparel made of fur from 35 to 50 per cent., and the higher class jewelry from 60 per cent. to 85 per cent. ad valorem; pencil lead is given specific rates instead of ad valorem rates with a slight increase. For the first time moving picture films are named specifically in a tariff law. The bill gives them a positive rate of 1 1/2 cents per foot.

Petroleum, crude and refined, including kerosene, gasoline, naphtha, benzine and similar petroleum products are made free of duty and are left even without a countervailing duty.

The Dingley rates on women's and children's gloves are allowed to stand.

The only change is a reduction on "schmaschen" gloves not over 14 inches in length on which the rate is made \$1.25 a dozen pairs instead of \$1.75.

Miscellaneous Provisions.

A provision is included in the bill which levies on all articles upon which any foreign country pays a bounty or grant upon its exportation, an additional duty equal to the amount of such bounty.

It is required that all imported articles capable of being marked without impairment of their value shall be stamped with the name of the manufacturer and the country of origin.

A very elaborate provision for the administration of the customs laws was adopted by the conferees. It is practically the same as that adopted by the senate. It is intended to prevent undervaluation of articles on which there is no foreign market by which true values may be ascertained.

Provision is made for the establishment of a customs court of appeals, with headquarters in Washington. It will comprise a presiding judge and four associate judges, at salaries of \$10,000 a year. There are to be appointed to conduct government cases before this court a special assistant attorney general at \$10,000, a deputy assistant attorney general at \$7,500, and four attorneys at \$5,000 each.

The internal revenue tax on tobacco is amended, making the rates on chewing and smoking tobacco eight cents a pound. No change was made in the tax on cigars, except those weighing under three pounds per 1,000, which were increased from 54 to 75 cents per 1,000. The rates on cigarettes were increased to \$1.25 per 1,000. A prohibition against the use of coupons or special gift pledges is incorporated in the new law.

Foreign-built yachts are subject to an excise tax of seven dollars per gross ton, which is to be collected annually on the first day of September. In lieu of the excise tax the owner of a foreign built yacht or pleasure boat may pay a duty of 35 per cent. ad valorem on his yacht. This will entitle him to American registry. The excise tax provision was adopted because of the fact that some question has been raised about the ability of the government to enforce collection of import duties.

Corporation Tax.
Every corporation, joint stock company or association organized for profit, and every insurance company is required to pay annually an excise tax of one per cent. upon its entire net income over and above \$5,000. This feature was put into the bill to raise additional revenues to apply on the treasury deficit. The section was prepared by Attorney General Wickham, assisted by other able lawyers in the administrative circle, and great care was taken to guard against double taxation. It provides a form of publicity which will enable the government to exercise supervision over corporations. The form of returns which must be made by corporations, and other features of the corporation tax law were made public in detail during its consideration in the senate. It is estimated that from \$20,000,000 to \$30,000,000 a year will be collected under this form of federal taxation.

The secretary of the treasury is authorized to issue Panama canal bonds to the amount of \$250,569,000, which sum, together with that already expended, equals the estimated cost of the Panama canal. It is not intended that the bonds shall be issued except as needed to provide money to carry on the work of canal construction. The bonds are to be payable 50 years from the date of issue, and will bear interest at a rate not exceeding three per cent. When the bonds are sold the secretary of the treasury will restore to the working balance the \$50,000,000 paid originally for the canal property and the canal zone.

The re-enactment of the provision authorizing the issuance of treasury certificates for money borrowed to meet public expenditures, increases the amount of the authorization from \$100,000,000 to \$200,000,000. A large number of other provisions that are in force under the existing tariff law are included in the conference bill, with a few changes in phraseology in several cases.

The drawback provision of the Dingley law is incorporated in the conference bill in lieu of the drawback of the house bill which intended to permit the substitution of domestic material in the manufactured article for export to the same quantity that the imported material, upon which a drawback was obtainable, was used in the manufacture of similar articles for domestic consumption. An additional provision was adopted entitling users of domestic alcohol in the manufacture of perfumery and cosmetics to secure a drawback of internal revenue tax to the amount of alcohol used in an exported article.

Senate Ideas Accepted.

Practically all the administrative features of the bill which were adopted in the senate were accepted by the conferees. They include a new maximum and minimum feature, a corporation tax law instead of the inheritance tax adopted by the house, authorization for a bond issue to raise money to build the Panama canal, as well as numerous other features.

The maximum and minimum provision prescribes duties in accordance with the rates named in the dutiable list until March 31, 1910, when 25 per cent. ad valorem is to be added automatically as the maximum duty. The president is authorized to apply the minimum rates, however, to imports from a country which gives its best rates to the products of the United States and is made the judge as to whether a foreign country accords to the United States treatment which is reciprocal and equivalent. When he finds that this condition exists he is to issue a proclamation putting in effect the minimum rates and until the time of the proclamation the maximum rates will apply.

The president is empowered to employ such persons as may be required to secure information to assist the president in the discharge of the duties imposed upon him and information which will be useful to the officers of the government in the administration of the customs laws. The reciprocity treaty with Cuba is not affected by the maximum and minimum provision.

The president is empowered also to abrogate those reciprocity treaties which can be terminated by diplomatic action. It is made his duty to give 10 days' notice after the bill becomes a law of his intention to bring those treaties to an end. All other treaties which contain no stipulation in regard to their termination by diplomatic action shall be abrogated by a notice of six months from the president to those countries, the notice dating from April 30, 1909, on which date Secretary Knox notified foreign governments that the United States would soon ask them to enter into new tariff relations.

REBELS FIGHT ON

REPUBLIC PROCLAIMED AT
BARCELONA, SAYS REPORT
RECEIVED IN LONDON.

NEW OUTBREAKS ARE FEARED

No Person Subject to Military Duty
Allowed to Leave Country—
Place a Ban on Foreign
Newspapers.

London.—A dispatch received here Sunday by a news agency from Cerbere, France, reports that the revolutionaries have proclaimed a republic in Barcelona and that the fortress Montjuich is constantly firing upon the districts occupied by them.

Cerbere, Franco-Spanish Frontier.—The latest news received from Barcelona Sunday was to the effect that fighting between the troops and the revolutionaries continued fiercely. It was reported that 40 revolutionaries have been shot without trial at the Montjuich fortress, among them being Emiliano Iglesias, editor of the Progreso, the organ of Deputy Leroux, chief of the Republicans in Barcelona.

The situation in Palamos, the center of the cork industry, was reported to be alarming and fears were expressed for the safety of foreigners there.

Madrid.—The government announced Sunday that, despite the attitude of the populace of Catalonia and the desertions from the army in northern Spain, the response of the recruits and reservists to the call to the colors in other provinces, like Aragon and Andalusia, was unanimous.

The minister of war has prohibited the departure from Spain of all persons subject to military duty, under the penalty of being considered deserters. The government has also placed a ban on the sale of foreign papers containing accounts of recent events in Catalonia and Morocco. An official note said the latest advances from Barcelona were to the effect that order reigned and that work had been commenced again in several factories and the gas lighting plant will soon be re-established.

San Sebastian.—Despite the official announcement Sunday that order had been restored in Catalonia, renewed measures have been taken to prevent an outbreak elsewhere, especially in the Bilbao region, where the Socialists and advanced Republicans are organizing. The garrisons at Burgos, Vittoria and San Sebastian are being held in readiness to act quickly and energetically.

Paris.—Marquis del Muni, Spanish ambassador to France, in an interview Sunday declared that he had most reassuring news from Catalonia and Melilla. He insisted that only 200 men had been killed and 500 wounded in the fighting in Morocco and that the rebellion in Catalonia had been completely mastered. The ambassador denied categorically the existence of the alleged text of a secret Hispano-Franco treaty of 1904, which was published in Germany, and under the conditions of which France agreed to lend Spain her assistance in Africa.

Although Barcelona may be calmer the insurrectionists have taken to the suburbs and the outlying country where they are sowing the seeds of revolt and inflaming the populace to struggle to the bitter end.

From Melilla came the news of another Spanish convoy being ambushed and several of its officers being wounded before the troops succeeded in extricating themselves from the attack of the tribesmen.

TARIFF IS UP TO SENATE.

House, by Vote of 195 to 183, Adjourns
Conference Report—Adjournment Friday.

Washington.—Unless something happens to provoke heated discussions of a political character the new tariff bill should be enacted into law by the senate and the extraordinary session of congress adjourned before the end of the present week. The bill went to the senate Monday.

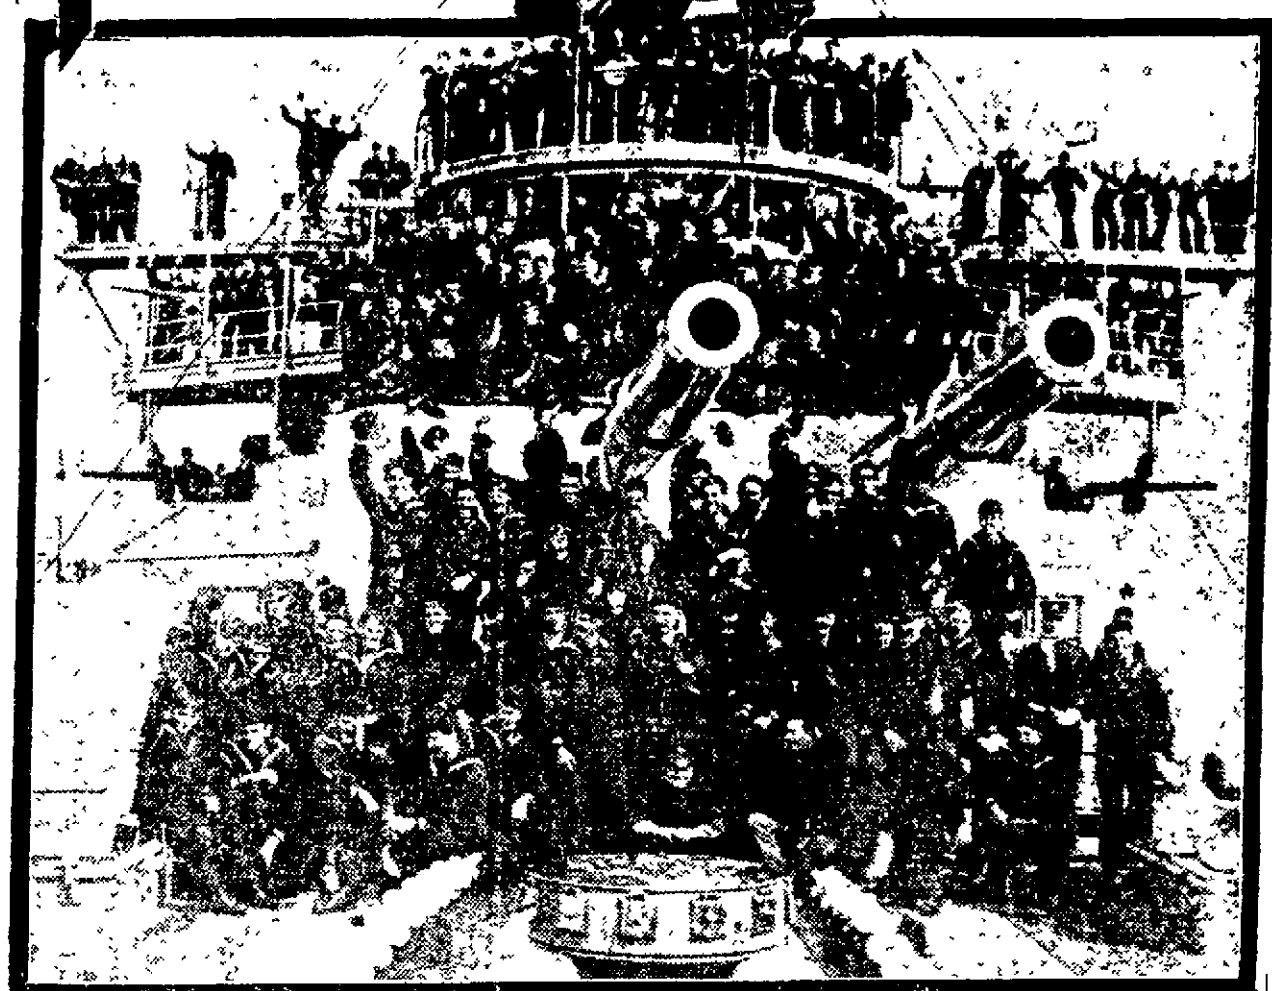

The house adopted the report Saturday night by a vote of 195 to 183. The vote was the climax of an eleven-hour session, conducted through most oppressive heat, but notwithstanding, it was enlivened by a dozen or more speeches of more or less fiery nature.

Twenty Republicans voted against the adoption of the report. They were: Cary (Wis.), Davis (Minn.), Gronna (N. D.), Haugen (Iowa), Hubbard (Iowa), Keffer (O.), Kendall (Iowa), Lenroot (Wis.), Lindberg (Minn.), Mann (Ill.), Miller (Minn.), Murdoch (Kan.), Nelson (Wis.), Nye (Minn.), Poindester (Wash.), Southwick (N. Y.), Stearnson (Minn.), Stevens (Minn.), Volstead (Minn.), Woods (Iowa).

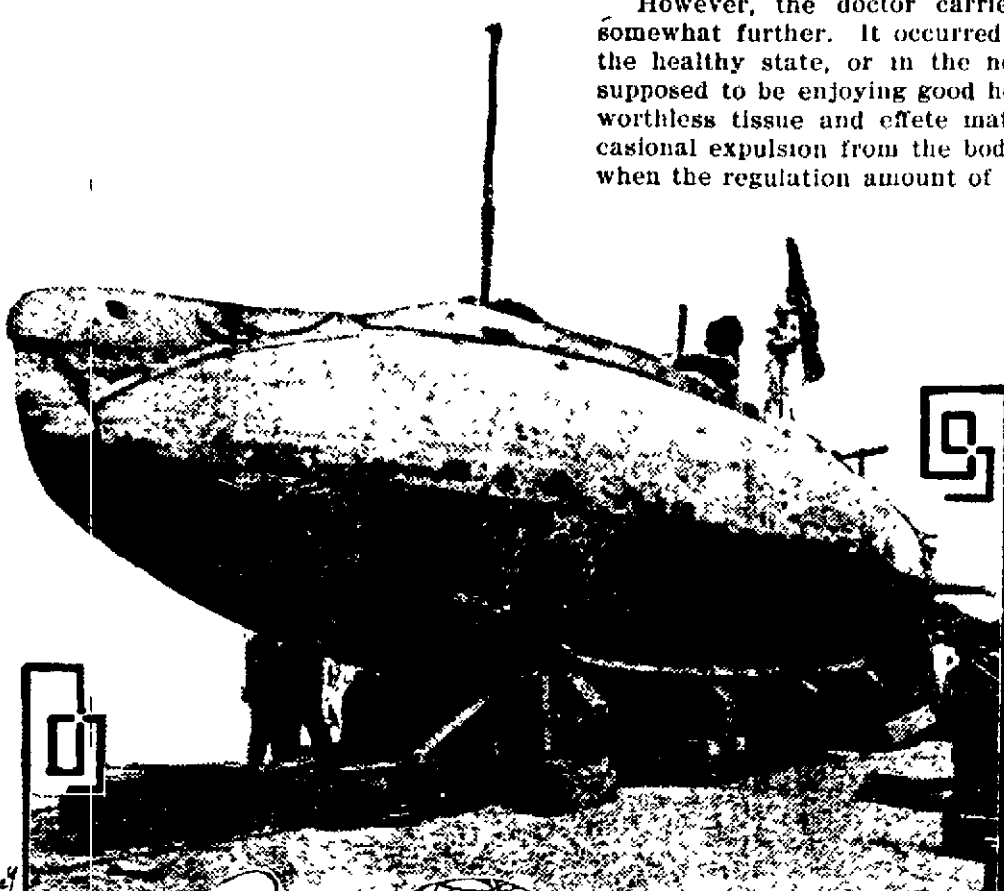

Two Democrats, Broussard and Eptopinal of Louisiana, voted for the report.

FIFTY BATTLECRAFT IN MIMIC WAR

By CAPT. ELLIS D. MORSON

CREW OF A BATTLESHIP

DISABLED SUBMARINE
TORPEDO BOAT IN DRY DOCK

IF YOU had been an eye witness of the great naval battle which was fought off the port of Provincetown, Mass., in the Atlantic ocean, you would say without hesitation that "Uncle Sam can lick the world."

It was a mimic encounter the feature of this summer's maneuvers of the Atlantic battleship fleet which were held off the rugged Massachusetts coast between July 7 and August 7, the exercises there having just come to an end.

It was a great scrap bloodless of course but filled with enough mimic war to make an American of the coldest temperament throw his hat into the air and yell for Old Glory, the stars and stripes, President Taft and all the rest.

Drawn up in battle alignment were 50 war craft of every size and shape. They ranged all the way from Rear Admiral Seaton Schroeder's 16,000 ton flagship, U. S. S. Connecticut to the tiny submarine torpedo boat Tarranula.

Divided into two squadrons opposite each other, these two divisions of "our friends, the enemy" broke the morning mist on opposite horizons and at the flagship's signals quickly fell into circular battle formation, opening fire at a distance or several miles.

On paper it was a gory struggle. A dozen of the terrors of the sea were "disabled" by Rear Admiral Schroeder's edict and several submarines figuratively carried their crews to Davy Jones' locker, never to return.

The battleship Connecticut led the ships of one division. From out of the cover of each opponent's guns darted the tiny torpedo boats and almost as often their courses were blocked and in some cases the torpedoes and torpedo boats "destroyed."

By daylight the battle being called a "draw" the searchlights of the two sets of enemies followed each other out of sight and that Saturday evening foes became friends upon reaching headquarters at Provincetown.

Every known modern naval device was given its inning during the fight. Torpedoes were dispatched by wireless telegraph, this being an experiment tried in an actual engagement for the first time by the United States. The newly adopted fire control mast, which has been called the "inverted waste basket," proved a success, the officers said. The summer's maneuvers afforded the first opportunity for a crucial test of this invention.

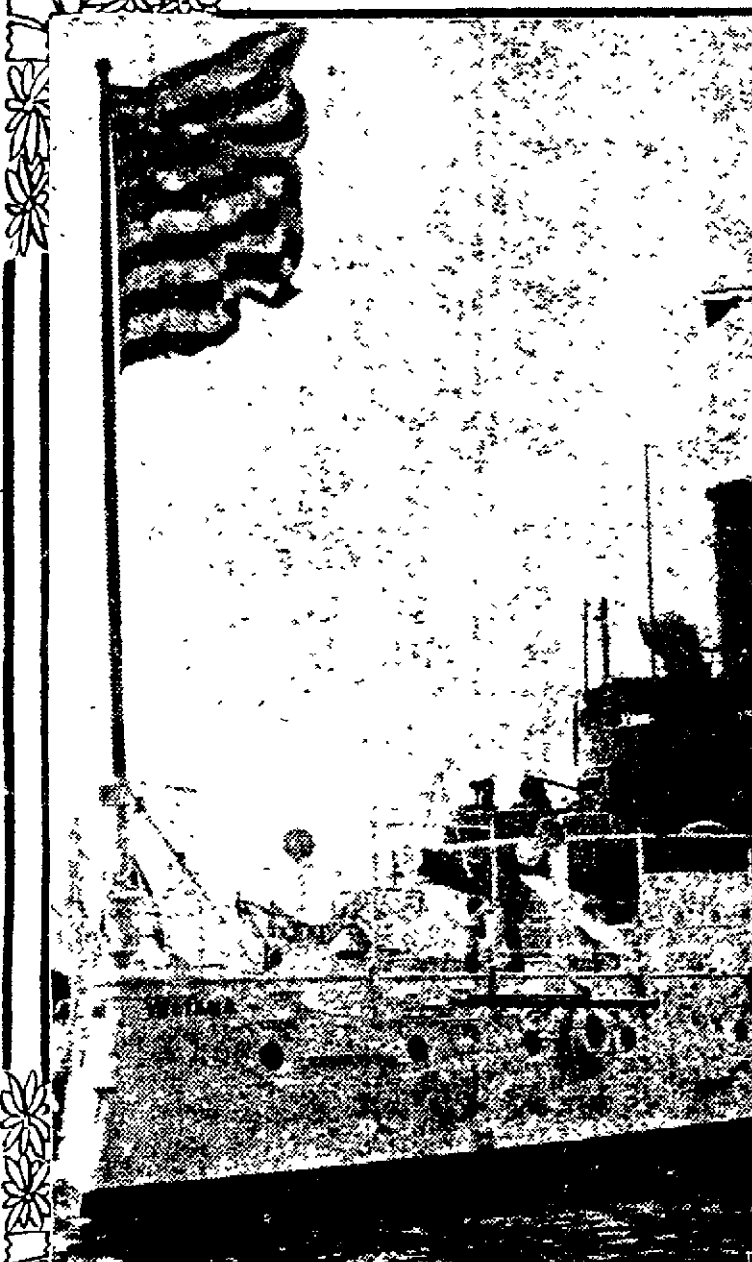

A dozen torpedo boats made attacks on the big battleships and officers and men were required to exert extreme vigilance to also guard against the little submarine torpedo boats, four of which with the parent ship, the gunboat Castine, made things lively for the monster war vessels. Time and again the battleship Connecticut was compelled to dip her nets to ward off the destructive torpedoes which shot little swirls of foam to the surface of the ocean as they sped on their mission of mimic death.

The grim reaper, burlesqued, stalked everywhere during the encounter and time and again ships were declared "sunk," "destroyed" or "scuttled" to prevent capture by the enemy, while admirals, captains, petty officers and men were notified they had been "killed" by a well-directed shell.

The battle of the fleets was the play of the maneuvers. To the able-bodied seamen the work consisted of fleet drills and exercises involving tactical problems and battle evolutions. With their work off Provincetown finished the fleet was scheduled to depart for the southern drill grounds, south of Virginia capes, for record and battle target practice, the results of which were ordered secretly tabulated for the war department.

This shooting will occupy about two weeks beginning August 19. At its close the vessels will return to Hampton Roads and go to their home yards for repairs which may have been necessitated by the vigorous summer campaign. The winter maneuvers will take place in West Indian waters.

Hampton Roads presented a great sight when the big war craft departed from there

U.S. BATTLESHIP INDIANA

for New England ports, where they spent July 4, preparatory to reparing to Provincetown for the maneuvers and sham naval struggle.

In the northern ports the sailors and officers were granted shore leave in relays from July 2 to July 6. Four ships visited Boston Independence day, two were at Penobscot bay, two at Portland, Me., and one each at Marblehead, Mass., Portsmouth, N. H., Eastport, Me., Brockport, Mass., Gloucester, Mass., and Booth Bay, Me.

With the reassembling of the fleet at Brockport, Mass., three days after the fourth began the summer's work which was more picturesque than that of any previous year, it was said.

From Provincetown the fleet proceeded to sea each week, returning Saturday nights. On these trips of a week each occurred the fleet drills, the evolutions and other exercises.

One feature of the maneuvers was the presence of the naval militias of several eastern states. The members of these militia bodies are citizen sailors. Each body of militia was taken out for a week's instruction on the big ships. Permission to take the reserves on the voyages was granted through the courtesy of the navy department.

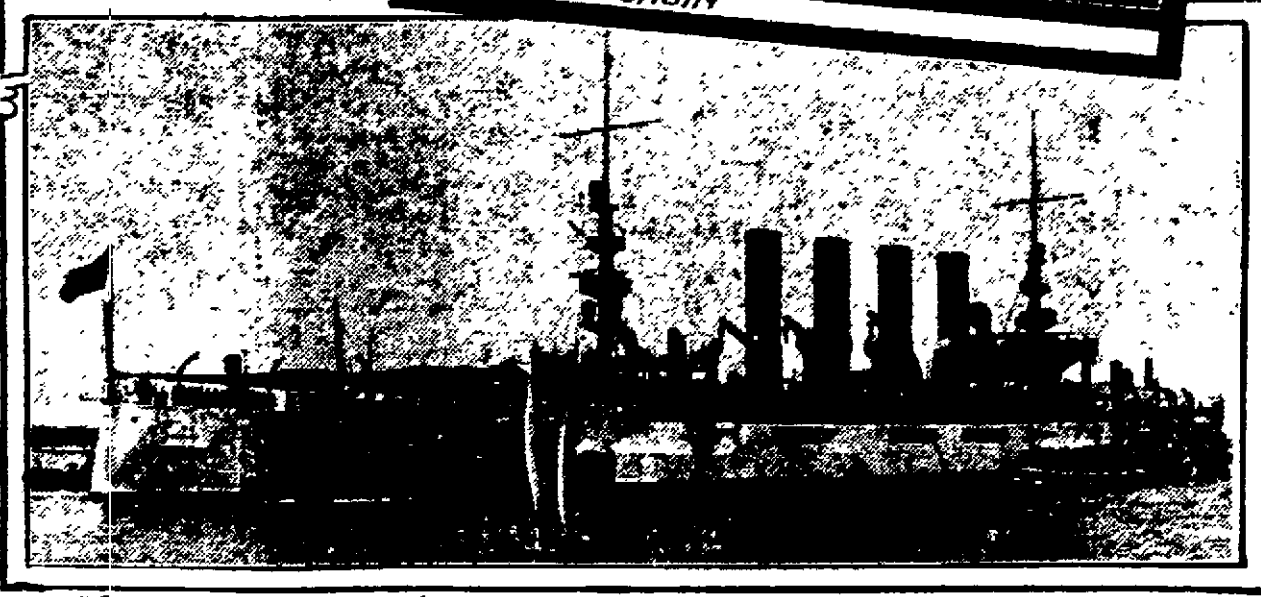

The Provincetown maneuvers presented the spectacle of battleships at practice firing at sea under every weather condition for the first time in the history of American naval art. Night firing under the same conditions was one of the important parts of the program which was carried out to the letter.

President Taft and Secretary of the Navy Meyer were witnesses of several of the maneuvers of the fleet at sea and both officials expressed themselves as delighted with the progress which the sailors have made at marksmanship since their world tour.

Two old torpedo boats, Nicholson and O'Brien, were dismantled, filled with cork to keep them afloat and used as targets for the gigantic projectiles. Time and again they were riddled and finally, the cork having been so thoroughly perforated that they were longer unable to keep afloat, they sunk to the bottom of the ocean.

They were towed at different speeds by the cruisers and thus the gunners of the men-of-war given an opportunity to gauge distance and motion at the same time, one of the most difficult feats at which the American tar is an adept.

The scout cruisers Chester, Salem and Birmingham and the armored cruisers North Carolina, Montana and New York joined the fleet at Provincetown and took part in the elaborate

ARMORED CRUISER COLORADO

rate program. The cruiser Montgomery, which had been fitted up as a torpedo experimental ship, was also with the fleet and took a prominent part in the struggle at sea, its experiments proving of great future value.

The great Atlantic torpedo fleet also deserves mention in connection with the summer's play at war. The flotilla of 12 boats with the cruiser Dixie as parent ship and four brand new submarine boats with the gunboat Castine as their parent ship played spectacular parts alongside of the monster battleships of fifteen and sixteen thousand tons.

Only 12 of the 16 battleships which went around the world were with the fleet of the Atlantic ocean off Provincetown, the other four in Rear Admiral Schroeder's command being new vessels, receiving their first experience at firing in this practice.

STOP EATING AND GET WELL

"In the course of my long experience I have noted," says Dr. Guelpa, one of Italy's best-known consulting physicians, according to the New York World, "that the beginning of a cure of a sick person always declares itself when the bodily weight shows a decrease. Whenever, on the contrary, the weight remained stationary I never failed on any occasion to find that the temperature had increased and that the particular illness of the moment had the upper hand."

And so it was that Guelpa, much to the chagrin and temporary discomfort of his many patients—and he had one of the largest clientele in Italy—was wont to ruthlessly prescribe a "diet of starvation." The patient would naturally protest. He felt weak, he

would declare, and then Guelpa would talk to him somewhat after the following manner:

"My friend, you feel weak—and why? Simply because at the present moment your body, in the process of starvation, is expelling from its various departments a bad superabundance of toxic matters and diseased or worthless tissue which while you were overfeeding your system were unable to be thrown off owing to the calls you made upon your digestive and kindred organs. Not only do I starve you now, my poor friend, but tomorrow I will give you a purgative. You think I am cruel, do you? Not at all. All these noxious matters will be carried away from your system; but nevertheless I shall continue to starve you, caro amico. When your temperature has gone below the normal—that is to say, when in a couple of days the excess of toxic matter has been eliminated, then you shall have something to eat. No, not till then."

However, the doctor carried his investigations somewhat further. It occurred to him that even in the healthy state, or in the normal body which is supposed to be enjoying good health, this used-up or worthless tissue and effete matter must require occasional expulsion from the body. It is obvious that when the regulation amount of food is consumed the body's digestive and kindred organs have their allotted tasks to perform. Consequently, the refuse or worthless matter remains in the system, thus forming an object of attack in the case of disease, a source of debility and a happy hunting ground for those noxious phagocytes that prey upon the healthy body, first intrenching themselves in a center of the body which is predisposed to unhealthiness and attacking from

Libby's

Food Products

Libby's Vienna Sausage

Is distinctly different from any other sausage you ever tasted. Just try one can and it is sure to become a meal-time necessity, to be served at frequent intervals.

Libby's Vienna Sausage just suits for breakfast, is fine for luncheon and satisfies at dinner or supper. Like all of Libby's Food Products it is carefully cooked and prepared, ready to serve, in **Libby's Great White Kitchen**—the cleanest, most scientific kitchen in the world.

Other popular, ready-to-serve Libby Pure Foods are:—

- Cooked Corned Beef**
- Peerless Dried Beef**
- Veal Loaf**
- Evaporated Milk**
- Baked Beans**
- Oxow Oxtail**
- Mixed Pickles**

Write for free booklet,—"How to make Good Things to Eat". Insist on **Libby's** at your grocer.

Libby, McNeill & Libby Chicago

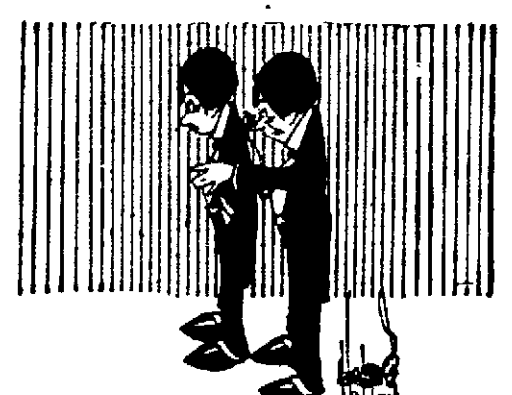

FOR SALE 100-Bbl. Flour Mill
Practically new and in first class condition. Run by electricity. Located in the thriving town of Plains, Mont., six miles from the great Flathead Indian Reservation soon to be opened for settlement. Prices and terms on application. Address: First National Bank, Plains, Mont.

CHEAP CANADIAN LANDS—Buy direct from British Columbia Government. Two dollars and fifty cents per acre. Cash fifty cents. Balance one year. Level, stock, fruit and dairy country. Good rainfall, no blizzards. Good fishing, timber and markets. For information write R. M. Butler, 225 Stark Street, Portland, Oregon.

CALIFORNIA—7000 stock ranch, 611 acres, in foothills Sierra Nevada Mountains, Mariposa County, well fenced, abundant wood, water, seven room house, bath, telephone, two barns. A. M. Snyder, Calhoun, California.

LAND—IRRIGATED—LAND. Perpetual water right, fine water, productive soil, crop failures unknown; 50 bu. wheat per acre; 35 to 50 tons alfalfa; beautiful climate; free timber; easy terms; write now. BIRWOOD LAGO CO., Rock Springs, Wyoming.

A LONG WAY BACK.

George—There's Miss Passay. She claims she's never been kissed.
Harry—Why, I've kissed her myself, years ago. She means not since she can remember.

A City Clerk's Garden.

A city clerk never misses a chance of expatiating on his garden to his colleagues, who, however, were never taken home to see it, but were under the impression it was of enormous size. Five of them resolved to have a look at it, discovered his address, and called one Saturday afternoon to see the hundreds of roses all a-growing and a-blooming. On being taken to the rear of the house, judge of their surprise on seeing a back yard about 12 feet by ten feet. One bold spirit ventured that it was not very big.

"Big!" replied the proud owner, pointing to the sky. "Why, man, alive, look at the height of it!"—Chicago Daily Socialist.

The man who is only marking time is most likely to be singing about marching to Zion.

Every package of Post Toasties

Contains a little book—"Tid-Bits made with Toasties."

A couple of dozen recipes
Of fascinating dishes,
A help in entertaining
Home folks or company.
